| A635011 | Denmark | 1250-1500 | Skeleton, mature female, (Four items - skull with mandible, left and right foot), showing effects of leprosy, from a medieval Danish leprosy cemetery, reputedly c.1350 |
| A635012 | Denmark | 1350-1500 | Skull with mandible and lower leg bones (tibia & Fibila), mature human, showing effects of leprosy, from a medieval Danish cemetery, reputedly c. 1350 |
| A661314 | Denmark | | Skeleton of a leper, incomplete, medieval, Danish |
| A102935 | Ecuador | | Shrunken head with short hair, decorated with feathers, by Jivaro tribe, Ecuador |
| A109084 | Ecuador | | Shrunken head with long hair, acquired in Ecuador |
| A121091 | Ecuador | 1801-1900 | Shrunken head, with long hair, by Jivaro tribe, Ecuador |
| A121104 | Ecuador | | Shrunken head with long hair, by Jivaro tribe, Ecuador |
| A155039 | Ecuador | | Shrunken head with long hair, by Jivano tribe, Ecuador |
| A190320 | Ecuador | | Shrunken head decorated with beetle elytra, from Central Ecuador |

| Accession Number | Provenance | Date Made | Description |
|---|---|---|---|
| A221683 | Ecuador | | Shrunken head with short hair and beard, from Ecuador |
| A230414 | Ecuador | | Shrunken head of child, by Jivaro tribe, Ecuador |
| A233681 | Ecuador | | Shrunken head with long black hair, by Jivaro tribe, Ecuador |
| A36674 | Ecuador | | Shrunken head with long hair, decorated with bird's heads, by Jivaro tribe, Ecuador |
| A38099 | Ecuador | | Shrunken head with little remaining hair, by Zaroguro Indians, Ecuador |
| A41122 | Ecuador | | Shrunken head with long hair, by Jivaro tribe, Ecuador |
| A44058 | Ecuador | | Shrunken head with long brown hair, by Jivaro tribe, Ecuador |
| A61492 | Ecuador | | Shrunken head with plaited hair, decorated with feathers, by Jivaro tribe, Ecuador |
| A622202 | Ecuador | 1401-1800 | Four human auterior interiors with mineral inlays, Ecuador, 1401-1800 |
| A622203 | Ecuador | 1401-1850 | Three upper incisors, with turquoise inlays, Ecuador, 1401-1850 |
| A622204 | Ecuador | 1401-1800 | Four Human incisors with gold inlays, from Ecuador, the Esmeraldas and Mexico, 1401-1800 |
| A63428 | Ecuador | | Shrunken head with long hair, decorated with feathers, by Jivaro tribe, Ecuador |
| A63429 | Ecuador | | Shrunken head of child, by Jivaro tribe, Ecuador |
| A642550 | Ecuador | | Shrunken head with long hair, decorated with feathers, by Jivaro tribe, Ecuador |
| A642551 | Ecuador | | Shrunken head with long hair, from Ecuador |
| A642552 | Ecuador | | Shrunken head with long hair decorated with beetle elytra, from Ecuador |
| A642553 | Ecuador | 1801-1900 | Shrunken head with long hair, from Ecuador |
| A642554 | Ecuador | | Shrunken head with long hair, decorated with beads, from Ecuador |
| A642555 | Ecuador | 1801-1900 | Shrunken head with long hair, decorated with feathers and beads, by Jivaro tribe, Ecuador |
| A642556 | Ecuador | | Shrunken head with short hair, from Ecuador |
| A642557 | Ecuador | | Shrunken head with curly hair and beard, by Jivaro tribe, Ecuador |
| A642558 | Ecuador | | Shrunken head with long hair, from Ecuador |
| A642559 | Ecuador | | Shrunken head with long hair, from Ecuador |
| A642560 | Ecuador | | Shrunken head with long hair, decorated with feathers, from Ecuador |
| A642561 | Ecuador | | Shrunken head with long hair, decorated with beads and feathers, from Ecuador |
| A642562 | Ecuador | | Shrunken head with long hair, from Ecuador |
| A642563 | Ecuador | 1801-1900 | Shrunken head, with long hair, by Jivaro tribe, Ecuador |
| A642564 | Ecuador | | Shrunken head with curly hair, by Jivaro tribe, Ecuador |
| A68229 | Ecuador | | Shrunken head, by Jivaro tribe, Ecuador |
| A68231 | Ecuador | | Shrunken head with short hair, from Central Ecuador |
| A88119 | Ecuador | 1850-1930 | Native imitation shrunken head of gourd and human hair, Ecuadorian, 1850-1935 |
| A95788 | Ecuador | | Shrunken head with long hair, decorated with feathers, from Ecuador |
| A95789 | Ecuador | | Shrunken head with long hair, decorated with feathers, from Ecuador |
| A97275 | Ecuador | | Shrunken head with long hair, by Jivaro tribe, Ecuador |
| A10760 | Egypt | 3000-1000BC | Mummy, infant female, said to be Egyptian, 3000-1000BC |
| A113324 | Egypt | 343-69 | Egyptian mummy of the Ptolemaic period, Fayoum region |
| A113325 | Egypt | 343-69 | Egyptian mummy, probably a child, of the Ptolemaic period |
| A153489 | Egypt | 1-300 | Skull, adult, human, severely fractured as the result of a blow from an edged weapon, said to be Roman period, from Egypt, 1-300AD |
| A166708 | Egypt | 2000-1900BC | Skull, no mandible or facial skeleton, said to be young adult female, from Upper Nile region, inscription says Egyptian, 2000BC-1900 |
| A54527 | Egypt | 2000-100BC | Mummified head, without wrappings, no provenance, Egyptian, 2000-100 BC |
| A634911 | Egypt | 4000-2001 BC | Bones of human left foot, showing effects of osteoarthritis, said to be predynastic Egyptian, 4000-2001 BC |
| A85943 | Egypt | 100BC-200 | Human femur, left, showing healed unreduced fracture, adult, from Tell Fara, Egypt, 100 BC-200 AD |
| A85944 | Egypt | 100BC-200 | Human femur, right, showing healed unreduced fracture, adult, from Tell Fara, Egypt, reputedly Roman period, 100 BC-200 AD |
| A85945 | Egypt | 100BC-200AD | Human humerus, left, showing healed unreduced fracture, adult, from Tell Fara, Egypt, reputedly Roman period, 100 BC-200 AD |
| A1315 | England | 1760-1820 | A lock of hair said to be from George III, 1760-1820 |
| A17489 | England | 1801-1850 | Dried human head, dissected to show blood vessels etc., early 19th century |
| A604010 | England | 1823 | Lock of hair removed from Edward Jenner after his death, 26th January 1823, framed |
| A118307 | Europe | 1900-1925 | Skull, normal, youth, for anatomical use, 1900-1925, probably European, hinged |
| A166206 | Europe | 1701-1900 | Frontal bone of human skull, with signs of injury on left side, probably European, 18th or 19th century |

| Accession Number | Provenance | Date Made | Description |
|---|---|---|---|
| A166621 | Europe | 1701-1900 | Human head and neck preserved and injected with wax to show branches of external carotid artery, probably European, 18th or 19th century |
| A199290 | Europe | 1701-1900 | Human cranium, mandible and facial skeleton and right temporal bone missing, probably European, 18th or 19th century |
| A25407 | Europe | 1801-1900 | Articulated skeleton with phrenological skull inscribed in French, attached, European, 19th century |
| A28417 | Europe | 1-200 | Glass funerary urn, with fragments of bones, Roman, Western Europe, 1-200AD |
| A28506 | Europe | 1701-1800 | Gold memento mori finger ring, with transparent setting containing human hair, possibly 18th century |
| A635634 | Europe | 1700-1900 | Skull of youth, badly damaged, probably European, c.1700 to c.1900 |
| A635635 | Europe | 1700-1900 | Skull of youth, damaged, c.1700 to c.1900, probably European |
| A63623 | Europe | 1800-1900 | Human tongue, dried, probably European, c. 1800-1900 |
| A650850 | Europe | 1871-1920 | Human skull, no mandible, trepanned right parietal, probably European, 1871-1920 |
| A650855 | Europe | 1851-1930 | Human skull, broken, mandible and base cranial parts in fragments, cranium showing parietal exotosis, possibly European, 1851-1930 |
| A650862 | Europe | 1701-1900 | Human skull, no mandible, bone fitted, depression in left frontal bone, teeth worn, covered with labels, possibly used for phrenology, probably European, 18th or 19th century |
| A650863 | Europe | 1701-1900 | Fragment of left side of human skull, probably European, 1701-1900 |
| A650864 | Europe | 1701-1900 | Fragment of human skull rond palate and nasal cavity, possibly European, 1701-1900 |
| A650865 | Europe | 1701-1900 | Fragment of right side of human skull, probably European, 1701-1900 |
| A650866 | Europe | 1701-1900 | Fragment of left side of human skull, probably European, 1701-1900 |
| A650876 | Europe | 1500-1800 | Fragile human skull, mandible missing, brown encrustation, European?, 1500-1800 |
| A651131 | Europe | 1880-1920 | Trade amulet made in Europe for African market, consisting of 3 artificial human teeth, 2 incisors and 1 canine, European, 1880-1920, threaded on string |
| A651855 | Europe | 1801-1900 | Leg bone shows badly healed fracture, with initials W.H., European, 19th century |
| A653939 | Europe | 1790-1810 | Foetal skull on turned lignum vitae stand, lower jaw missing, domed cover of lignum vitae with ivory finial, European, 1790-1810 |
| A659655 | Europe | 1701-1900 | Human skull, cranium sliced horizontally, probably used as a demonstration model as different bones have been numbered, European(?), 18th or 19th century |
| A665511 | Europe | 1701-1910 | Tubular silver pendant with projecting lock of human hair, amuletic, De Mortillet collection, European(?), 1701-1919 |
| A74779 | Europe | 1900-1923 | Skull of European child aged about 4 to 6 years old, showing complete milk dentition, black dots showing growth points etc., European, 1900-1925 |
| A96088 | Europe | 1801-1900 | Human skull, calvarium only, trepanned left parietal, left half of frontal bone missing, sections wired together, probably European, 1801-1900 |
| 1981-471 | France | 1900-1940 | Disarticulated skull, human, by Rouppert of Paris, 1900-1940, owned by Dr. Edwin Clarke |
| A119091 | France | 1815-1821 | Lock of Napoleon's hair, cut off by Dr. Barry O'Meara at St. Helena |
| A121429 | France | 1801-1900 | Human skin from one half of male body, probably French, 19th century |
| A524 | France | 1850-1920 | Human skin tattooed with male and female figures, head of clown and bird, and inscribed " Robinet", French, 1850 to 1920 |
| A525 | France | 1830-1900 | Human skin from chest and abdomen, tattooed with two female heads and lion and lioness, French, 1830-1890 |
| A526 | France | 1830-1900 | Human skin from whole chest of man, tattooed with various motifs, French, 1830-1900 |
| A527 | France | 1850-1920 | Human skin tattooed with star and head, French, 1850 to 1920 |
| A528 | France | 1880-1920 | Human skin tattooed with woman's head and shoulders and inscribed with place names including Algerie and Sahara, French, 1880 to 1920 |
| A529 | France | 1880-1920 | Human skin tattooed with figure of woman, anchor and star and other faint marks, in poor condition, French, 1880 to 1920 |
| A530 | France | 1899 | Human skin tattooed with various motifs, probably dated 1899, French |
| A531 | France | 1867 | Human skin, tattooed with two figures of soldiers, male and female in peasant costume, crossed cannon and crossed swords, probably French, dated 1867 |

| A118058 | New Zealand | 1871-1931 | Bone bowl, made from the top of a skull, untraditionally carved, Maori, New Zealand, late 19th to 20th centuries |
| A129908 | New Zealand | 1871-1933 | Skull bone tiki, untraditional, Maori, New Zealand, late 19th to 20th centuries |
| A136908 | New Zealand | 1871-1934 | Bone tiki, with shell eyes, Maori eyes, New Zealand, 1871-1934 |
| A164548 | New Zealand | 1871-1932 | Bone tiki, very stylised, Maori, New Zealand, 1871-1932 |
| A196330 | New Zealand | 1871-1928 | Bone tiki, carved from human skull, Maori, New Zealand, 1871-1928 |
| A212258 | New Zealand | 1801-1900 | Bowl made from human skull, calvarium only, perforated round rim and elaborately carved, from Wanganui River area, New Zealand, possibly tourist, 1801-1900 |
| A220809 | New Zealand | 1851-1920 | Bone flute, made from bone of ancestor, called "Koauau", decorated with carved curvilinear design, played in cases of difficult parturition, Maori, from New Zealand, 1851-1920 |
| A60926 | New Zealand | 1871-1927 | Skull bone, untraditional design, Maori, New Zealand, late 19th to 20th centuries |
| A650851 | New Zealand | 1501-1900 | Human skull with trephination hole and second mark possibly around on right parietal, no mandible or facial skeleton, from New Zealand, 1501-1900 |
| A655856 | New Zealand | 1801-1910 | Preserved human head, with teeth, some hair, facial tattooing some done post mortem, and greenstone ear pendant, now loose, Maori, from New Zealand, 1801-1910, moko |
| A656080 | New Zealand | 1851-1910 | Moko preserved human head with hair and teeth, from New Zealand, 1851-1910 |
| A85777 | New Zealand | | Bone skull tiki, representing transition from traditional to modern design, Maori, New Zealand |
| A85778 | New Zealand | 1871-1933 | Bone tiki, carved from a piece of human skull, with shell eyes, Maori, New Zealand, 1871-1933 |
| A85779 | New Zealand | 1871-1915 | Bone tiki, elaborately carved, with shell eyes, Maori, New Zealand, 1871-1915 |
| A85780 | New Zealand | 1871-1928 | Bone tiki, untraditional, Maori, New Zealand, late 19th to 20th centuries |
| A86629 | New Zealand | 1871-1930 | Bone tiki, Maori, New Zealand, late 19th to 20th centuries |
| A86704 | New Zealand | | Bone tube, carved, used by the shaman to retrieve a lost soul and thus restore health to its owner, Kaiapoi, New Zealand |
| A127047 | Nigeria | 1880-1910 | Antelope horn, bound with cotton cuffs, surmounted by human jaw bone (lower mandible), long wooden peg through top, used by "powerful" medicine man, Nigerian, 1880-1910 |

| Accession Number | Provenance | Date Made | Description |
|---|---|---|---|
| A5085 | Nigeria | 1851-1930 | Human skull, mandible missing, cranium with three extensive splits, from southern Nigeria, African, 1851-1930 |
| A650858 | Nigeria | 1801-1920 | Human skull, no mandible or dentition, male, adult, Gauawarri tribe from Nigeria (North), 1801-1920 |
| A657210 | Nigeria | 1851-1900 | Ceremonial staff made from the upper arm bone of a human, covered in gauze, decorated with conice shells, amuletic, smallpox ju-ju, Yoruba tribe, Nigeria, 1851-1900 |
| A666422 | Nigeria | 1801-1920 | Human skull, no mandible, adult Ibibio, from Southern Nigeria, 1801-1920 |
| A666423 | Nigeria | 1801-1920 | Human skull, with separate mandible, adult Ibibio, from Southern Nigeria, 1801-1920 |
| A121191 | North America | 1871-1900 | Beaded leather amulet, containing umbilical cord, in form of turtle(?), Plains Indian, North American, late 19th century |
| A16130 | North America | | Skull, flattened at back by application of a pad from birth, American Indian, north-west coast |
| A175422 | North America | | Scalp, Sioux, acquired in 1878, U.S.A |
| A230279 | North America | 1871-1900 | Leather amulet with bead decoration, possibly, turtle or lizard form, contains umbilical cord, Plains Indian, North America, late 19th century |
| A232134 | North America | 1871-1900 | Beaded leather amulet, in form of turtle or lizard, containing umbilical cord, Plains Indian, North America, late 19th century |
| A631117 | North America | 1000-1800 | Skull and mandible of female skeleton, from San Miguel Island, California, USA; prehistoric Indian, with flint spearhead impaled in left temple, ex. Moadie collection |
| A631905 | North America | 1000-1700 | Isolated skull of prehistoric North American Indian, from Sacramento Valley, California, USA, illustrating inverted canines and a metopic suture |
| A642458 | North America | | 3 hairs said to be from the head of George Washington, fixed to certificate of authenticity |
| A642566 | North America | | Scalp lock, North American, Indian |
| A659654 | North America | 1701-1900 | Skull of a North American Indian, long-headed, thought to have been artificially deformed, lower jaw missing, USA(?), and Canada(?), 18th to 19th centuries |
| A656115 | Oceania | 1801-1900 | Human skull, headhunter's trophy, with lower jaw bound to upper and engraved design associated with females carved on forehead, Oceanic, 1801-1900 |
| A63309 | Palestine | | Tibia and fibula, excavated in Palestine c.1925, fracture evident |
| A63310 | Palestine | | Femur, human, showing unreduced fracture, excavated by Sir Flinders Petrie in Palestine, c.1925 |
| A63311 | Palestine | | Radius, human, with unreduced fracture, from Prehistoric burial in Palestine excavated by Sir Flinders Petrie, c.1925 |
| A634844 | Palestine | 2200-2000BC | Excavated bronze age skull showing 4 healed trephinings, from Jericho, 2200-2000BC |
| A131557 | Papua New Guinea | 1801-1900 | Human skull, lower mandible missing, with incised decoration of forehead, from Papuan Gulf area, New Guinea, 1801-1900 |
| A14624 | Papua New Guinea | 1700-1900 | Skull, youth, Papuan, with mandible c. 1700 to c. 1900 |
| A157602 | Papua New Guinea | 1830-1920 | Skull with mandible, face partially reconstructed with wax, eye sockets wax filled, from interior tribe, Kikori, Papua New Guinea, 1830-1920 |
| A39063 | Papua New Guinea | 1851-1910 | Human skull, reconstructed features of wax and clasp painted red, shell eyes, ceremonial, from Kikori River region, Papuan Gulf, New Guinea, 1857-1910 |
| A45779 | Papua New Guinea | 1851-1910 | Human skull, small, with lower jar attached by sennit and missing teeth replaced by cane pegs, face reconstructed with traces of shell inlay for eyes, traces of coloured pigment, from Kokori River region, Papua Gulf, Papua New Guinea, 1851-1910 |
| A650846 | Papua New Guinea | 1891-1900 | Human cranium with trephination from New Britain collected by Rev. J.H. Crump, Papua New Guinea, 1891-1900 |
| A650847 | Papua New Guinea | 1891-1900 | Human skull with eight trephinations, showing considerable regrowth, from New Ireland, Papua New Guinea, 1891-1900 |
| A7090 | Papua New Guinea | 1830-1900 | Male(?) skull without mandible, eye sockets inland with mother of pearl with pupils kept out of sentiments and for divination, from Dyke Bay, Papua New Guinea, 1830-1900 |
| A97181 | Papua New Guinea | 1871-1920 | Human skull, no lower jaw(?), modelled over with clay and decorated with red and white and black tribal markings, ceremonial, from Sepik River region, New Guinea, 1871-1920 |
| A97202 | Papua New Guinea | 1871-1920 | Male, ancestral figure of carved wood, with beard of natural hair, tusk in nose and inlaid cowrie shells for eyes, mounted on wooden base, from Mundugumor tribe, Sepik River region, New Guinea, 1871-1920 |
| A301301 | Peru | 1401-1800 | Human mummy, in rope container, Peru?, 1401-1800 |

| Accession Number | Provenance | Date Made | Description |
|---|---|---|---|
| A101342 | Peru | 1000-1500 | Toilet flask made from skeleton of a small animal or part of human vertebrae, covered with hide, pre-Columbian, Nazca Indian, Peru, 1000-1500 |
| A104974 | Peru | 800-1400 | Bundle of plaited human hair, Peruvian, 800-1400 |
| A104975 | Peru | 800-1400 | Bundle of plaited human hair, Peruvian, 800-1400 |
| A10690 | Peru | 1401-1900 | Mummified Peruvian head, on wooden stand, 1401-1900 |
| A113174 | Peru | 800-1400 | Mummified body with knees folded to chin, Peruvian, 800-1400 |
| A113175 | Peru | 800-1400 | Mummified body, Peruvian, 800-1400 |
| A113176 | Peru | 800-1400 | Mummified body with knees to chin, Peruvian, 800-1400 |
| A113177 | Peru | 800-1400 | Mummified body with knees to chin, Peruvian, 800-1400 |
| A113178 | Peru | 800-1400 | Mummified body with knees to chin, Peruvian, 800-1400 |
| A161722 | Peru | | Shrunken head with long hair, said to be that of Tibi, a chief of the "Antipas", Peru |
| A25554 | Peru | 800-1400 | Mummified head and arm, Peruvian, 800-1400 |
| A301495 | Peru | 1801-1920 | Human skull showing artificial deformation of cranium, damaged and repaired, possibly Peruvian, 1801-1920 |
| A54857 | Peru | 800-1600 | Mummified hand and foot of a young girl, Peruvian, 800-1600 |
| A642548 | Peru | 1801-1900 | Shrunken head with long hair, decorated with feather, acquired from Conibo tribe, Peru, 1900 |
| A656076 | Peru | 1801-1900 | Human skull showing artificial deformation by fronto-occipital pressure, no lower mandible, from Peru, 1801-1900 |
| A656100 | Peru | 1751-1920 | Human skull, crushed, showing artificial deformation by fronto-occipital flattening, from Peru, South America, 1751-1920 |
| A76219 | Peru | 1800-1900 | Amulet made from a knuckle bone, in the form of a human figure, bead inset for eye (one missing), Peruvian(?), 1800-1900 |
| A88394 | Peru | 1501-1900 | Mandible only of human skull, from Chorrillos, Lima, Peruvian, 1501-1900 |
| A88395 | Peru | 1501-1900 | Mandible only of human skull, from Macavileca, Chorrillos, Peruvian, 1501-1900 |
| A158034 | Philippines | 1851-1920 | Human skull, headhunter's trophy, with lower jaw attached by cane strips, cranium badly pitted, from Luzon, Philippines, 1851-1920 |
| A96090 | Philippines | 1801-1820 | Brachycephalons human skull with artificial articulation of mandible and trephination of left parietal possibly post mortem, from the Philippines, 1801-1920 |
| A59001 | Senegal | 1831-1925 | Human skull with artificial articulation of mandible, round trephination above right orbit possibly post mortem, from Senegal, African, 1831-1925 |
| A656112 | Sierra Leone | 1801-1910 | Skull, human and male, dolichocephalic, with sword wounds, from headdress of Tasso man of Poro Secret Society, Sierra Leone, 1801-1910 |
| A657217 | Sierra Leone | 1851-1920 | Human skull, no lower mandible, with secret Poro Society rattle, attached, from Mendiland, Sierra Leone, 1851-1920 |
| A20620 | Solomon Islands | 1801-1910 | Human skull, with lower mandible attached by strips of cane, and wearing hoop earrings on one side, associated with ancestor worship, from Solomon Islands |
| A657857 | South Africa | 1801-1900 | Part of the upper mandible of a human skull with two broken and two complete teeth, found in a 'cannibal's' cave at Cana, Basutoland, South African, 19th century |
| A657940 | South Africa | 1700-1920 | Bone, remnant, human, found in 'cannibal's' cave, found at Cana, Basutoland, South Africa, 1700-1920 |
| A130409 | South America | | Shrunken head with short hair, South American |
| A27677 | South America | | String of beetle elytra, with tuft of human hair at distal end, for decorating shrunken head, South American |
| A31654 | South America | 800-1400 | Mummified male body, South American, 800-1400 |
| A31655 | South America | 800-1400 | Mummified male body, South American, 800-1400 |
| A642652 | South America | | String of beetle elytra, with tuff of human hair at distal end, for decorating shrunken head, South American |
| A670015 | South America | 1870-1935 | Amuletic leglet, woven fibre and seeds with seed, nut and human bone fringe, mounted on cardboard, Upper Amazon, South American, 1870-1935 |
| A88036 | South America | 1600-1930 | Pair of leprous femurs, perhaps South American, 1600-1930 |
| A88945 | South America | | Girdle or "acachu" made from human hair, from Tutanangosa, South America |
| A263780 | Sudan | | Right femur (part), human, possibly with periosteal sarcoma, from prehistoric cemetery, Gebel Mayo, Sudan, excavated c. 1935 |
| A263829 | Sudan | | Part of skull showing depressed fracture, prehistoric cemetery, Gebel Moya |
| A631395 | Sudan | | 4 human urinary calculi from prehistoric cemetery of Gebel-Moya, Sudan, excavated early 20th century |

| Accession Number | Provenance | Date Made | Description |
|---|---|---|---|
| A634834 | Sudan | 1000-401BC | Excavated neolithic radius and ulna broken near wrist, Sudanese, 1000BC-401BC |
| A634835 | Sudan | 1000-401BC | Neolithic mandible, 1000-401BC, excavated at Jebel Moya, Sudan |
| A634837 | Sudan | 1000-401BC | Excavated fragment of neolithic mandible showing displaced molar, Sudanese, 1000-401BC |
| A634839 | Sudan | 1000-401BC | Excavated neolithic mandible and maxilla showing decay of tooth sockets, Sudanese, 1000-401BC |
| A634840 | Sudan | 1000-401BC | Excavated neolithic mandible and maxilla, showing evidence of food packing, Sudanese, 1000-401BC |
| A634840/1 | Sudan | 1000-401BC | Excavated neolithic maxilla, showing evidence of food packing, Sudanese, 1000-401BC |
| A634840/2 | Sudan | 1000-401BC | Excavated neolithic mandible, showing evidence of food packing, Sudanese, 1000-401BC |
| A634850 | Sudan | 1000-401BC | Excavated neolithic mandible showing alveolar abscesses, Sudanese, 1000-401BC |
| A634851 | Sudan | 1000-401BC | Excavated and restored "neolithic" skull showing canine protruding through upper jaw, Sudanese, 1000-401BC |
| A658214 | Sudan | 50,000-10,000BC | Small fragments of a skull excavated from the prehistoric Ethiopian cemetery at Gebel-Moya, Anglo-Egyptian Sudan, by the expedition of Henry Wellcome, Sudanese, c. 50,000-10,000BC |
| A658320 | Sudan | 1880-1910 | Amuletic necklace consisting of string of disc beads interspersed by human teeth(?) incisors and milk, Gour tribe, Sudan, 1880-1910 |
| A682453 | Sudan | | 2 pieces of metatarsal bone, showing extosis, from prehistoric cemetery at Gebel-Moya, Sudan |
| A682454 | Sudan | | 2 pieces of incomplete metatarsal bone, sharing exostosis, from prehistoric cemetery at Gebel-Moya, Sudan |
| A106457 | Tibet | 1701-1900 | Ritual Buddhist trumpet, made from human femur, Tibetan, 18th or 19th century |
| A106716 | Tibet | 1701-1900 | Buddhist drum made from human skulls, Tibetan, 18th or 19th century |
| A114542 | Tibet | | Double headed skull drum, skin and bone, Tibetan, date unknown |
| A114543 | Tibet | 1701-1800 | Buddhist trumpet made from a human femur, Tibetan, 18th century |
| A126464 | Tibet | | Skull drum, double-headed, skin and bone, Tibetan, date unknown |
| A129638 | Tibet | | Double-headed skull drum, skin and bone, Tibetan, date unknown |
| A137565 | Tibet | 1801-1900 | Skull bowl with copper lid and stand, Tibetan, 19th century |
| A138503 | Tibet | 1801-1900 | Pectoral made of carved human bone beads, strung on threads, and in necromantic rites, Tibetan, 19th century |
| A138504 | Tibet | 1801-1900 | Two armbands, made of carved human bone beads, strung on threads, used in necromantic rites, Tibetan, 19th century |
| A15408 | Tibet | 1701-1900 | Pair of Buddhist ritual trumpets, human thigh bones with silver and armour mounts, Tibetan, 18th to 19th centuries |
| A15408/1 | Tibet | 1701-1900 | Buddhist ritual trumpet, one of pair, human thigh bones with silver and armour mounts, Tibetan, 18th to 19th centuries |
| A15408/2 | Tibet | 1701-1900 | Buddhist ritual trumpet, one of pair, human thigh bones with silver and armour mounts, Tibetan, 18th to 19th centuries |
| A157352 | Tibet | 1701-1900 | Buddhist drum made from human skull, Tibetan, 18th or 19th centuries |
| A157353 | Tibet | | Trumpets made from human femur, Tibetan, date uncertain |
| A161157 | Tibet | 1801-1900 | Buddhist trumpet, made from human femur with brass horn, Tibetan, 19th century |
| A161161 | Tibet | 1801-1900 | Buddhist trumpet made from human femur, called a Rkan, Tibetan, 19th century |
| A161170 | Tibet | 1701-1900 | Buddhist human skull vessel and brass stand, Tibetan, 18th or 19th century |
| A161171 | Tibet | | Bowl made from top of human skull, Tibetan, date uncertain |
| A161208 | Tibet | 1701-1900 | Buddhist priest's cloth helmet with plaques of human bone, called a nag-pa, Tibetan, 18th or 19th century |
| A161209 | Tibet | 1701-1900 | Carved bone ornaments from a Buddhist priest's apron, called a nag-pa, Tibetan, 18th or 19th century |
| A161210 | Tibet | 1701-1900 | Buddhist priest's cloth apron with plaques of human bone, called a nag-pa, Tibetan, 18th or 19th century |
| A161211 | Tibet | 1701-1900 | Bones from a Buddhist priest's apron, Tibetan, 18th or 19th century |
| A161267 | Tibet | 1601-1900 | Buddhist rosary of human skull beads, Tibetan, 17th to 19th century |
| A161269 | Tibet | 1801-1900 | Buddhist rosary with beads of bone, Tibetan, 19th century |
| A175061 | Tibet | 1801-1900 | Top of skull mounted in copper, used in Tantric rites, Tibetan, 19th century |
| A17517 | Tibet | 1701-1900 | Trumpet, made from human femur, decorated with copper and brass, Tibetan, 1701-1900 |
| A18944 | Tibet | 1801-1900 | Skull bowl, with brass lid and stand, Tibetan, 19th Century |
| A193310 | Tibet | 1801-1900 | Apron made from carved human bone beads, strung on threads, and in necromantic rites, Tibetan, 19th century |

| Accession Number | Provenance | Date Made | Description |
|---|---|---|---|
| A196305 | Tibet | 1801-1900 | Pectoral made of carved human bone, strung on threads, Tibetan, 19th century |
| A196306 | Tibet | 1801-1900 | Pectoral with back yoke, made of carved human bone, strung on threads, Tibetan, 19th century |
| A20948 | Tibet | 1801-1900 | Set of four Buddhist bowls, made from human skulls, Tibetan, 19th century |
| A23180 | Tibet | 1701-1900 | Trumpet, made from human femur, Tibetan, 1701-1900 |
| A242597 | Tibet | | Trumpet made from human femur, Tibetan, date uncertain |
| A27550 | Tibet | 1801-1900 | Apron made from carved human bone beads and girdle, mounted on green silk backing, Tibetan, 19th century |
| A27552 | Tibet | 1801-1900 | Apron of human bone beads strung on threads, used in necromantic rites, Tibetan, 19th century |
| A301250 | Tibet | 1701-1900 | Buddhist drum made of human skulls, Tibetan, 18th or 19th century |
| A4508 | Tibet | | Bowl, made from top of human skull, three copper wire feet, Tibet date uncertain |
| A4737 | Tibet | 1801-1900 | Buddhist drum, made from human skulls, Tibetan, 19th century |
| A635115 | Tibet | 1701-1900 | Hand drum, called a damatu, made of two human skulls, Tibetan, 18th or 19th century |
| A635120 | Tibet | 1701-1900 | Buddhist bowl made of Lama's skull, fine bronze lid, Tibetan, 18th or 19th century |
| A635124 | Tibet | 1701-1900 | Buddhist bowl made of human skull, Tibetan, 18th or 19th century |
| A635128 | Tibet | 1701-1900 | Buddhist bowl of silver and human skull, Tibetan, 18th or 19th century |
| A635129 | Tibet | 1701-1900 | Buddhist prayer wheel made from human skulls, Tibetan, 18th or 19th century |
| A635138 | Tibet | 1701-1900 | Buddhist drum, made of 2 human skulls, Tibetan, 18th or 19th century |
| A635150 | Tibet | 1701-1900 | Buddhist drum made from two human skulls, Tibetan, 18th or 19th century |
| A639062 | Tibet | 1801-1900 | Skull bowl lined with bronze, bronze lid and stand, Tibetan, 19th century |
| A639063 | Tibet | 1801-1900 | Skull bowl with lid and stand, metal and bone, Tibetan, 19th century |
| A639100 | Tibet | | Bowl made from top of human skull, Tibetan, date unknown |
| A639101 | Tibet | | Skull drum, double-headed, skin and bone, Tibetan, date unknown |
| A639102 | Tibet | | Bowl made from top of human skull, lined with brass, Tibetan, date uncertain |
| A639104 | Tibet | 1801-1900 | Apron made of carved human bones, ivory plaque, turquoise bead, and small metal bulb, strung on threads, Tibetan, 19th century |
| A639118 | Tibet | 1801-1900 | Two bracelets made of carved human bone, strung on threads, Tibetan, 19th century |
| A55195 | Uganda | 1925 | Human calvaria showing recent trephination hole, from Uganda, 1925 |
| 1982-1237 | UK | 449-1066 | Human cranium, possibly trephined, with eight skull fragments, possibly Saxon |
| 1996-350 | UK | 1900-1996 | Freeze dried normal adult brain (age 69, male) |
| 1996-352 | UK | 1900-1996 | Freeze dried slice of Alzheimer's brain (age 81, female) |
| 1996-354 | UK | 1900-1996 | Freeze dried slice of normal brain (age 53, male) |
| 1999-396 | UK | | Distended human skull, labelled LN Fowler, for phrenological use, from the British Phrenological Society. |
| 1999-397 | UK | | Human skull, marked with phrenological divisions, from the British Phrenological Society. |
| 1999-398 | UK | | Human skull, marked with phrenological divisions, from the British Phrenological Society. |
| 1999-399 | UK | | Human skull, marked with phrenological divisions, from the British Phrenological Society. |
| 1999-400 | UK | | Top of human skull marked with phrenological divisions, from the British Phrenological Society. |
| 1999-403 | UK | | Right hand side of human skull, possibly for phrenological use, from the British Phrenological Society. |
| 1999-404 | UK | | Human skull complete with lower mandible, possibly for phrenological use, from the British Phrenological Society. |
| 1999-405 | UK | | Human skull, possibly for phrenological use, from the British Phrenological Society. |
| 1999-92 | UK | 1900-1992 | Femor bone with plastic panel used to join two fractured sections with steel pins, part of a collection of joint prostheses and associated material, representing joint replacement technology, some of which have been developed at the Orthopaedic Research Unit at the Redhill and Dorking Hospitals, Surrey, 1900-92. |
| 1999-969 | UK | 1999 | Flask containing complete sheet of laboratory grown human skin cells preserved in 10% formal saline (formalin), 1999. |
| 2004-260 | UK | 1950-91 | Wooden cabinet containing histological slides prepared by Dr J C Wagner, 1950-91, including original material relating to cases described in his 1960 paper making a causal link between exposure to blue asbestos and the lung cancer, mesothelioma. |

| Accession Number | Provenance | Date Made | Description |
|---|---|---|---|
| 2004-262 | UK | 1950-91 | Box of photomicrographs and laminated lung sections prepared by Dr J C Wagner, 1950-91, during his work on lung diseases in animals and humans. |
| 2005-644 | UK | | Post mortem histological slides prepared by Dr P C Elmes, 1958-76, including original material from the '1940 group', the first fully investigated cases of mesothelioma in the UK (in Belfast shipyard workers). |
| A121088 | UK | 1850-1920 | Dried left arm, possibly child's, mounted on board, prepared for demonstrating ligaments and arterial system, English(?), 1850-1920 |
| A155938 | UK | 1820-1860 | Partial lower denture, ivory with one human bicuspid, English, 1820-1860 |
| A155939 | UK | 1820-1860 | Partial lower denture, ivory with one human bicuspid, English, 1820-1860 |
| A200952 | UK | 1701-1900 | Human skull, found in the Thames, no mandible, broken zygomatic arch, English, 18th or 19th century |
| A233179 | UK | 1854-1870 | Photograph, possibly of a painting of Florence Nightingale, and a lock of her hair, framed, c1854-1870. |
| A3215 | UK | 1784 | A lock of hair, said to be from the head of Edward IV, taken from his tomb at Windsor in 1784, mounted in a frame, and secured by wax to a piece of paper bearing a handwritten descriptive inscription |
| A44694 | UK | 1832 | Fragment of skin of Jeremy Bentham, who was dissected in 1832, in frame |
| A45462 | UK | 1143-1189 | Teeth, said to be a tooth of Henry II, c.1143-1189 |
| A48800 | UK | 1875-1925 | Seven human bones, mostly from skulls of at least three individuals, English, 1875-1925 |
| A622118 | UK | 1801-1850 | Partial upper and lower denture, with springs, gold, ivory and human teeth, English, 1801-1850 |
| A622296 | UK | 1801-1850 | Dental crown, half a pinned natural tooth, pin missing, probably from a denture, probably English, 1801-1850 |
| A634836 | UK | 1750-1251BC | Excavated middle bronze age, mandible showing ground teeth and periostitis, Welsh, 1750-1251BC |
| A634848 | UK | 3500-2001BC | Excavated neolithic skull, showing healed trephining and recovery from bad fracture, perhaps British, 3500-2001BC |
| A635013 | UK | 500-1000 | Replica of Anglo-Saxon copper arm bandage with human arm bone, English, 500-1000 |
| A63614 | UK | 1880-1910 | Partial skull mounted on stand, personal relic of Dr. Shuttleworth, English(?), 1880-1910 |
| A642926 | UK | 1800-1852 | Lock of Duke of Wellington's hair and 2 invitations to his funeral |
| A650596 | UK | 1850-1950 | Vertebrae specimens in glass storage jar, specimens wrapped in muslin, English, 1850-1950 |
| A650787 | UK | 1870-1910 | Specie jar, clear glass, stopper immovable, contains ethmoid bone, personal relic of Mr. Claud Woakes of Harley Street, London, 1910 |
| A650788 | UK | 1870-1905 | Specie jar, clear glass, with wood lid, cork stopper, sealed with wax, contains nasal polypus, personal relic of Mr. Claude Woakes of Harley Street, London, 1905, by Curtis and Co. of London |
| A650789 | UK | 1870-1910 | Specie jar, clear glass, with stopper, contains five small bones secured together by length of cotton, personal relic of Mr. Claud Woakes of Harley Street, London, 1870-1910 |
| A650790 | UK | 1870-1895 | Specie jar, clear glass, with stopper, contains six small stones mounted on piece of card, personal relic of Mr. Claud Woakes of Harley Street, London, 1870-1895 |
| A650791 | UK | 1870-1910 | Specie jar, blue glass, with stopper, contains unidentified bone, by Dr. Washington Evans, personal relic of Mr. Claud Woakes, English, 1870-1910 |
| A650792 | UK | 1870-1926 | Specie jar, clear glass, with stopper, contains unidentified bone, personal relic of Mr. Claud Woakes, English, 1870-1926 |
| A650793 | UK | 1880-1920 | Specie jar, clear glass, no stopper, contains specimen removed in operation, personal relic of Claud Woakes of London, English, 1880-1920 |
| A650794 | UK | 1890-1936 | Small piece of bone, anatomical specimen suspended from wire in a screw top glass jar, personal relic of Mr. Claud Woakes, 1890-1936 |
| A650795 | UK | 1870-1930 | Box container, cardboard, contains two small bones, personal relic of Mr. Claud Woakes of London, 1870-1930 |
| A650797 | UK | 1880-1911 | Cardboard container holding small anatomical specimen, originally for medal, personal relics of Claud Woakes, English, 1880-1920 |
| A651338 | UK | 1860-1900 | 27 teeth, some fragmentary, extracted, English, 1860-1900 |
| A651409 | UK | 1880-1920 | Cardboard container holding pieces of bone, four annealing plates and a number of handwritten labels unconnected with items, personal relic of Claud Woakes, Senior Aural Surgeon, London Throat Hospital, M.R.C.S., L.R.C.P. (London). Made in England circa 1880-1920. |
| A651414 | UK | 1870-1930 | Cardboard container, red covering, hinged lid, contains four annealing slides, four pieces of bone and two teeth, box by Roberts and Co., personal relic of Mr Claud Woakes (1870-1930), senior Aural Surgeon, London Throat Hospital, M.R.C.S., L.R.C.P. (London). |

| Accession Number | Provenance | Date Made | Description |
|---|---|---|---|
| A651969 | UK | 1920-1950 | Section of lung in cylindrical glass jar with rubber stopper, pneumonectomy specimen to demonstrate bronchiectasis, owned and presumably prepared by Dr. P. Ellman, England, 1920-1950 |
| A651970 | UK | 1920-1950 | Section of lung in preservative sealed between 2 sheets of glass, to demonstrate pulmonary tuberculosis, owned and presumably prepared by Dr. P. Ellman, England, 1920-1950 |
| A651971 | UK | 1920-1950 | Section of lung in preservative sealed between 2 sheets of glass, to demonstrate military tuberculosis owned and presumably prepared by Dr. P. Ellman, England , 1920-1950 |
| A651976 | UK | 1918-1920 | 7 glass phials containing bone dust resulting from trephination experiments by Dr. T. Wilson Parry, England, 1918-1920 |
| A651990 | UK | 1913-1920 | Piece of skull showing hole produced by trephination with obsidian instrument, experiment by Dr.T. Wilson Parry, England, 1913-1920 |
| A651992 | UK | 1913 | Piece of skull, showing hole produced by trephination with obsidian knife, experiment by Dr T. Wilson Parry, England, 1913 |
| A651993 | UK | 1913 | Piece of skull showing groove produced by trephination with slate, experiment by Dr T. Wilson Parry, England, 1913 |
| A651994 | UK | 1918-1920 | Top of skull showing rondelle produced by trephination with obsidian knife, experiment by Dr T. Wilson Parry, England, 1918-1920 |
| A651995 | UK | 1918-1920 | Top of child's skull showing hole produced by trephination with flint racloir, experiment by Dr T. Wilson Parry, England, 1918-1920 (possibly 1918) |
| A651996 | UK | 1913 | Piece of skull showing hole produced by trephination with obsidian racloir, experiment by  Dr T. Wilson Parry, England, 1913 |
| A651997 | UK | 1913-1920 | Piece of skull of 21 year old male showing hole produced by trephination with flint scraper, experiment by Dr T. Wilson Parry, England, 1913-1920 |
| A651998 | UK | 1913 | Piece of skull showing holes produced by trephination with hafted shark's tooth, experiment by Dr T. Wilson Parry, England, 1913 |
| A652220 | UK | 1918-1920 | Glass phial containing bone dust resulting from trephination using shark's tooth, produced in experiment by Dr. T. Wilson Parry, England, 1918-1920 |
| A652221 | UK | 1918-1920 | Glass phial containing bone dust resulting from trephination using flint, produced during experiment by Dr. T. Wilson Parry, England, 1918-1920 |
| A652222 | UK | 1918-1920 | Glass phial containing bone dust resulting from trephination using flint, produced during experiment by Dr. T. Wilson Parry, England, 1918-1920 |
| A653835 | UK | 1831 | Fragment of skin from Thomas Williams, a bodysnatcher executed for murder 5th December 1831 |
| A653837 | UK | 1820-1860 | Human skin, tattooed with crucifix and badge possibly from one of the bodysnatchers Williams or Bishop, English, 1870-1860 |
| A653951 | UK | 1850-1920 | Dried left hand showing arterial system, English(?), 1850-1920 |
| A653952 | UK | 1850-1920 | Dried right hand showing circulatory system, English(?), 1850-1920 |
| A656225 | UK | 1900-1930 | Half-skeleton, right side in wooden box, for anatomy students, English, 1900-1930 |
| A659618 | UK | 1601-1840 | Some pieces of human skin covered with fungus, in glass toppered plywood case, found in St. Martin's Vaults, London, 1859, English, 1601-1840 |
| A659620 | UK | 1601-1850 | Piece of human body converted into adipocere, inside plywood case with broken glass top, found by F.T. Buckland in 1859, with label inscribed by him, English, 1601-1850 |
| A659623 | UK | 1801-1840 | Portions of human body showing unusual colour, found by F.T. Buckland in vaults of St. Martin in the Fields, 1859, in glass-topped case with label, English, 1601-1840 |
| A659626 | UK | 1601-1850 | Human dust, black, in glass-topped container with label, found in St. Martin in the Fields vaults by F.T. Buckland, 1859, English, 1601-1850 |
| A659627 | UK | 1601-1850 | Portions of human skull with crystals, found in vaults of St. Martin in the fields, 1859 by F.T. Buckland, in case with label, English, 1601-1850 |
| A659628 | UK | 1601-1840 | 2 portions of human body converted into adipocere, found in vaults of St. Martin in the Fields, 1859, by F.T. Buckland, in damaged case, with label, English, 1601-1840 |
| A659629 | UK | 1634-1840 | Skin from neck of one of brothers hanged for forgery, puckered and marked by rope, with labels, found by F.T. Buckland in vaults of St. Martin in the Fields, 1859, English(?), 1634-1840 |
| A659630 | UK | 1834-1840 | 4 vertebrae from neck of 2 brother hanged for forgery found in vaults of St. Martin in the Fields by F.T. Buckland, 1859, with label, English(?), 1834-1840 |
| A661040 | UK | | Pottery cinerary urn, containing cremated remains, from Kent, Iron Age |
| A665266 | UK | | Astragalus (ankle) bone carried against rheumatism, Suffolk, 1880-1916 |
| A665275 | UK | 1914 | Astragalus, (ankle bone) used as an amulet to cure rheumatism, from East London, 1914 |
| A666072 | UK | 1880-1916 | Human tooth, in grey and green printed cotton bag, tied round neck of infant to facilitate teething, south east London, 1916, English, 1880-1916 |

| Accession Number | Provenance | Date Made | Description |
|---|---|---|---|
| A667469 | UK | 1821-1870 | Small sealed specimen jar containing piece of brain of Burke the Edinburgh body-snatcher executed in 1829, jar made in Great Britain, |
| A683111 | UK | 1601-1840 | Human dust from vaults of St. Martin in the Fields found by F.T. Buckland in 1859, in case with label, English, 1601-1840 |
| A72364 | UK | 1900-1929 | Human stomach, dried, relic of Dr. Hill of London, c.1900-1929 |
| A72365 | UK | 1900-1929 | Part of human stomach, relic of Dr. Hill, dried, c.1900-1929 |
| A86416 | UK | | Lock of hair, said to be from the head of Grace Darling, in box, complete with a signed letter testifying to its authenticity |
| A96092 | UK | 500BC-1200 | Human calvarium with depression in right parietal possibly healed trephination, English, 500 BC to 1200 |
| E2000.168.1 | UK | 21/06/1905 | Human DNA sample in ethanol extracted from 4 litres of total blood in 500ml bottle with blue screw top. |
| E2000.230.1 | UK | 1999 | Skin grown in tissue culture, stained with red dye. |
| E2000.230.2 | UK | 1999 | Skin grown in tissue culture, unstained in ethanol as preservative. |
| E2000.252.1 | UK | | Human femur |
| L1999-4098 | UK | | One male human skeleton of Iron Age date from Whitegate Farm, Bleadon. |
| L2000-4371 | UK | | Human brain |
| L2001-4064 | UK | 2000 | Human heart from Robert Moss, who received a heart transplant on 4/8/00. |
| L2004-4141 | UK | | Babbage's brain: right sagittal section with cerebellum. |
| 1980-542 | Unknown | 1980 | Human skeleton, articulated, in bone, with stand and dust lever, 1980 |
| 1982-402 | Unknown | | Full term foetal skeleton, under glass dome on wooden base |
| 1987-1159/10 | Unknown | 1940-1987 | Human skull, adult, 'normal negroid', formerly the property of D. Greer-Walker, 1940-1987 |
| 1987-1159/7 | Unknown | 1940-1987 | Two human temporal bones, normal, formerly the property of D. Greer-Walker, 1940-1987 |
| 1987-1159/8 | Unknown | 1940-1987 | Infant's skull, illustrating cleft palate and displaced premacilla formerly the property of D. Greer Walker, 1940-1987 |
| 1987-1159/9 | Unknown | 1940-1987 | Human skull, adult, normal caucasian with slight underdevelopment of premaxilla, formerly the property of D. Greer-Walker, 1940-1987 |
| 1988-1041 | Unknown | | Bones of lower leg and foot, incomplete, origins unknown |
| 1988-1042 | Unknown | | Human foot bones, incomplete, origins unknown |
| 1988-1043 | Unknown | | Human fibula, origins unknown |
| A156516 | Unknown | 1501-1900 | Human skull with damaged mandible, hole in left parietal possibly trephination, two other small holes, provenance unknown, 1501-1900 |
| A160512 | Unknown | | Hank of human hair, provenance and date unknown |
| A191643 | Unknown | | Shrunken head with long hair, decorated with feathers |
| A36675 | Unknown | | Shrunken head with long hair, decorated with beads |
| A5075 Pt4 | Unknown | | Part of human(?) skull |
| A600029 | Unknown | 1831-1870 | Preserved human left hand, mid 19th century |
| A600030 | Unknown | 1790-1823 | Part of a human stomach, dissected by Edward Jenner |
| A604009 | Unknown | | Top of human skull |
| A613193 | Unknown | | Specimen bottle, with contents, glass, with cork stopper |
| A622050 | Unknown | | Ten human teeth, set of upper incisors; one tooth has been chipped but the tooth chip is present. |
| A622284 | Unknown | | Molar tooth, drilled, with cavity, no provenance |
| A622285 | Unknown | | Molar tooth, drilled, no provenance |
| A622286 | Unknown | | Molar tooth, drilled, no provenance |
| A622287 | Unknown | | Molar tooth, drilled, no provenance |
| A622288 | Unknown | | Molar tooth, drilled, no provenance |
| A622289 | Unknown | 1801-1900 | Molar tooth, drilled, 1801-1900 |
| A622290 | Unknown | | Molar tooth, drilled, no provenance |
| A622291 | Unknown | | Molar tooth, drilled, no provenance |
| A622292 | Unknown | | Molar tooth, drilled, no provenance |
| A622293 | Unknown | | Molar tooth, drilled, no provenance |
| A622294 | Unknown | | Molar tooth, drilled, filled with gutta percha(?), no provenance |
| A623211 | Unknown | 1850-1930 | Human lower incisor tooth, no provenance, 1850-1930 |
| A634849 | Unknown | 3500-2001BC | Possibly neolithic skull showing large trephined hole, 3500-2001BC |
| A641568 | Unknown | 1709 | Metal memento mori finger ring, set with a large square transparent stone which contains a skull on a hair background with a red and gold border, engraved inscription inside band, 1709 |
| A641570 | Unknown | 1747 | Metal memento mori finger ring, set with 1 large square transparent stone, with hair, surrounded by 4 small clear stones and ornate band bearing champlere inscription, 1747 |
| A641574 | Unknown | | Metal memento mori finger ring, with 1 large square setting which shows a tomb, a tree, skull and crossbones, possibly outlined in hair on a white background covered by glass |
| A641589 | Unknown | | Gold memento mori finger ring, set with a transparent oval stone containing an image of an urn and weeping willow made from hair |

| Accession Number | Provenance | Date Made | Description |
|---|---|---|---|
| A641594 | Unknown | | Gold memento mori ring, with oval setting composed of transparent cover over carved picture of a man leaning on an urn, partly made from hair |
| A641604 | Unknown | | Metal memento mori finger ring, with large rectangular setting, reversible, with a scene of a nymph standing next to a pillar on one side, and an inscription set against a background of hair on other side |
| A641619 | Unknown | 1815 | Gold memento mori finger ring, with rectangular swivel setting containing hair, under glass, with inscription on back of bezel, 1815 |
| A642143 | Unknown | 1689 | Gold slide, a memento mori of entwined hair and a skeleton, covered by glass, engraved with the initials W.H., 1689 |
| A642147 | Unknown | 1852 | Gold pendant, or memento mori with entwined hair and inscription, seal attached, 1852 |
| A642148 | Unknown | | Piece of memento mori, possibly from a slide, consisting of oval piece of glass backed by plaited hair and a picture of a skull |
| A642442 | Unknown | | Brooch, containing a graveyard scene with trees, flowers, a pond and a tomb, made up from hair, mounted in an oval metal frame and covered with glass, fastener missing |
| A642443 | Unknown | | Brooch, containing hair and thread and pearls, arranged on a pearly background, mounted in an oval metal frame and covered with glass, fastener missing |
| A642811 | Unknown | 1815-1900 | Phrenological head, made from a skull, labelled in French, with an Italian summary, according to Spurzheim's system (35 divisions) 1815-1900 |
| A642903 | Unknown | | Skeleton of foetus mounted under glass dome |
| A645177 | Unknown | | Preserved male genito-urinary system with erect penis |
| A646748 | Unknown | | Human skull, provenance unknown. |
| A646748 | Unknown | | Human skull with teeth held by metal denture |
| A651264 | Unknown | 1880-1928 | Wooden box, filled with wrapped skulls and post cranial material and histological slides, property of Dr. Albert Wilson, 1880-1928 |
| A651999 | Unknown | 1801-1920 | Human skull, used by Dr T. Wilson Parry to demonstrate different methods of primitive trephination, with excised bone on wires, provenance unknown, 1801-1920 |
| A652000 | Unknown | 1801-1913 | Frontal bone of skull used by Dr. Wilson Parry to demonstrate primitive method of trephining using flint scraper, provenance unknown, 1801-1913 |
| A652201 | Unknown | 1801-1913 | Piece of infant's skull, used by Dr. T. Wilson Parry to demonstrate primitive method of trephination using skull and taking 25 minutes, provenance unknown, 1801-1913 |
| A652202 | Unknown | 1801-1918 | Piece of skull used by Dr. T. Wilson Parry to demonstrate primitive method of trephining by boring with bow drill and stringing and scraping with flint flake, provenance unknown, 1801-1918 |
| A652203 | Unknown | 1801-1918 | Right frontal and parietal bones used by Dr. Wilson Parry to demonstrate primitive method of trephining using flint flakes, provenance unknown, 1801-1918 |
| A652204 | Unknown | 1818-1918 | Frontal bone of skull, used by Dr. Wilson Parry to demonstrate primitive method of trephining, using glass instrument, provenance unknown, 1801-1918 |
| A652205 | Unknown | 1901-1918 | Piece of infant's skull, used by Dr. T. Wilson Parry to demonstrate primitive trephination by scraping with flint, taking 15 minutes, provenance unknown, 1801-1918 |
| A652206 | Unknown | 1801-1918 | Piece of infant's skull, used by Dr. T. Wilson Parry to demonstrate primitive method of trephining by boring holes with hafted sharks tooth, provenance unknown, 1801-1918 |
| A652207 | Unknown | 1801-1913 | Piece of infant's skull used by Dr. Wilson Parry to demonstrate primitive method of trephining, using obsidian flake, taking 8 minutes, provenance unknown, 1801-1913 |
| A652208 | Unknown | 1801-1913 | Frontal bone, used by Dr. Wilson Parry to demonstrate trephining by primitive method, trephined entirely by hafted shark's tooth, provenance unknown, 1801-1913 |
| A652209 | Unknown | 1801-1913 | Piece of skull, used by Dr. T. Wilson Parry to demonstrate primitive trephining by method of first boring circle of holes with flint, provenance unknown, 1801-1913 |
| A652210 | Unknown | 1801-1918 | Piece of skull used by Dr. T. Wilson Parry to demonstrate primitive trephining by method of first boring circle of holes with flint instruments, provenance unknown, 1801-1918 |
| A652211 | Unknown | 1801-1918 | Piece of skull used by Dr. T. Wilson Parry to demonstrate primitive trephining, first and second stages of flint bored hole method, taking 77 minutes, provenance unknown, 1801-1918 |
| A652212 | Unknown | 1801-1920 | Piece of skull used by Dr. T. Wilson Parry to demonstrate primitive trephining by push-plough method with flint, provenance unknown, 1801-1920 |

| Accession Number | Provenance | Date Made | Description |
|---|---|---|---|
| A652213 | Unknown | 1801-1918 | Piece of skull used by Dr. T. Wilson Parry to demonstrate primitive trephining by scraping with flint, provenance unknown, 1801-1918 |
| A652214 | Unknown | 1801-1920 | Skull used by Dr. T. Wilson Parry to demonstrate trephining using glass instrument with two trephination holes, one with excised bone held in place with wire, provenance unknown, 1801-1920 |
| A652215 | Unknown | 1801-1920 | Human skull with 2 trephinations in parietal bones, one with excised rondelle hinged in place, part of Dr. T. Wilson Parry's collection, provenance unknown, 1801-1920 |
| A652216 | Unknown | 1801-1920 | Skull drinking cup belonging to Dr. T. Wilson Parry, from S. Pacific Islands, 1801-1920 |
| A661143 | Unknown | | Dried male genito-urinary system |
| A661144 | Unknown | | Dried stomach complete with duodenum and possibly the gall bladder |
| A661145 | Unknown | | Dried penis |
| A661188 | Unknown | | Human skull, mandible missing, possibly Roman |
| A666424 | Unknown | 1801-1920 | Human skull, no mandible, no provenance details, 1801-1920 |
| A666425 | Unknown | | 3 human mandibles, rest of skulls missing, no provenance or date details |
| A683007 | Unknown | 1701-1800 | Piece of trephined skull, showing injury, owned by Dr Edward Jenner, possibly 18th century |
| A70593 | Unknown | | Skull of a human child or foetus |
| A71927 | Unknown | 1801-1900 | Gold brooch, a memento mori to John Amery, with painting of mother and children next to an urn made of hair and studded with seed plants, 19th century |
| A71928 | Unknown | | Gold brooch, a memento mori set with garnets and pearls with plaited hair in the centre |
| A78701 | Unknown | | Preserved human left arm |
| A78702 | Unknown | 1831-1870 | Dissection of human left arm, mid 19th century |
