Who am I?

Science Museum Live Science

Application form

July 2013 – June 2014

Research topic

What field does your research fall under (e.g. genetics, psychology, epidemiology, etc.)?

Research details

Aims

What are you hoping to achieve with your research?

Sources of funding

How is your research being funded?

Rationale

Why are you carrying out your research? How does this fit in with the gallery theme of *Who am I?* specifically: what will visitors find out about themselves?

Chemicals/reagents

Do you propose to use any chemicals or reagents? If so, what would you be using?

Methods

How do you propose to carry out your research in the Live Science space?

How volunteers will be involved in research

How long would each volunteer be required for? What would he/she be required to do?

How visitors will be informed of results

Once the results have been analysed, how would you inform your volunteers of their contribution to your work?

Proposed dates of research and timings

When would you propose to start your research and how much data would you be hoping to gather?

Equipment

Research equipment

What equipment will you be bringing to conduct your research?

Museum equipment

What Museum equipment do you propose to use?

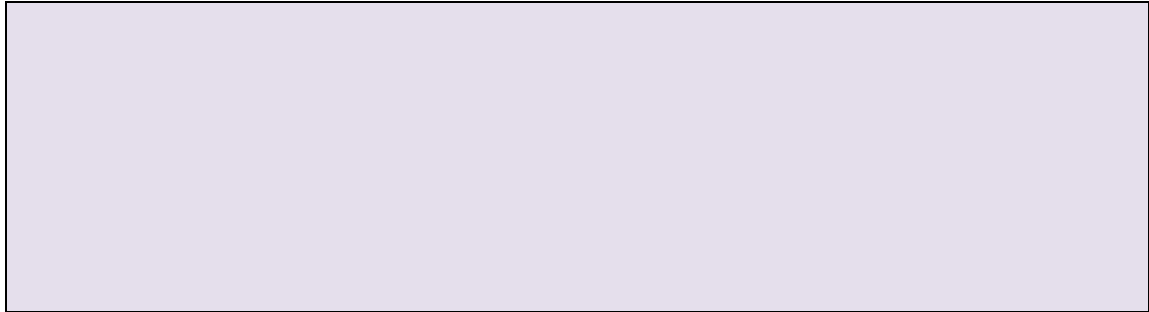

Volunteers

How the Museum population is relevant to the research

Please outline why you wish to use the Museum population in your research.

How schools will be involved

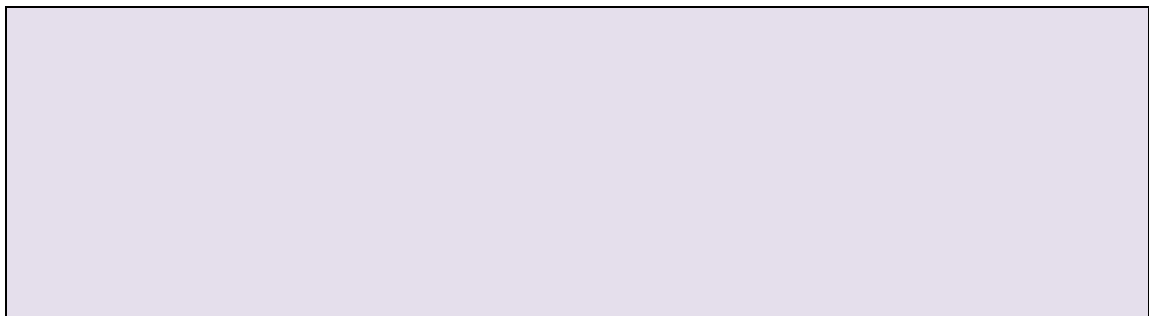

The Science Museum will be able to liaise with visiting school groups to obtain parental consent on behalf of those under 18, should you wish to include this group in your research.

Legal

Ethical approval

Please state whether ethical approval has been gained for the project, or when it is likely to be obtained.

Information sheets and consent forms

Please include copies of the information sheets and consent forms you propose to use.
