A635011	Denmark	1250-1500	Skeleton, mature female, (Four items - skull with mandible, left and right foot), showing effects of leprosy, from a medieval Danish leprosy cemetery, reputedly c.1350
A635012	Denmark	1350-1500	Skull with mandible and lower leg bones (tibia & Fibula), mature human, showing effects of leprosy, from a medieval Danish cemetery, reputedly c. 1350
A661314	Denmark		Skeleton of a leper, incomplete, medieval, Danish

Accession Number	Provenance	Date Made	Description
A102935	Ecuador		Shrunken head with short hair, decorated with feathers, by Jivaro tribe, Ecuador
A109084	Ecuador		Shrunken head with long hair, acquired in Ecuador
A121091	Ecuador	1801-1900	Shrunken head, with long hair, by Jivaro tribe, Ecuador
A121104	Ecuador		Shrunken head with long hair, by Jivaro tribe, Ecuador
A155039	Ecuador		Shrunken head with long hair, by Jivaro tribe, Ecuador
A190320	Ecuador		Shrunken head decorated with beetle elytra, from Central Ecuador
A221683	Ecuador		Shrunken head with short hair and beard, from Ecuador
A230414	Ecuador		Shrunken head of child, by Jivaro tribe, Ecuador
A233681	Ecuador		Shrunken head with long black hair, by Jivaro tribe, Ecuador
A36674	Ecuador		Shrunken head with long hair, decorated with bird's heads, by Jivaro tribe, Ecuador
A38099	Ecuador		Shrunken head with little remaining hair, by Zaroguro Indians, Ecuador
A41122	Ecuador		Shrunken head with long hair, by Jivaro tribe, Ecuador
A44058	Ecuador		Shrunken head with long brown hair, by Jivaro tribe, Ecuador
A61492	Ecuador		Shrunken head with plaited hair, decorated with feathers, by Jivaro tribe, Ecuador
A622202	Ecuador	1401-1800	Four human anterior interiors with mineral inlays, Ecuador, 1401-1800
A622203	Ecuador	1401-1850	Three upper incisors, with turquoise inlays, Ecuador, 1401-1850
A622204	Ecuador	1401-1800	Four Human incisors with gold inlays, from Ecuador, the Esmeraldas and Mexico, 1401-1800
A63428	Ecuador		Shrunken head with long hair, decorated with feathers, by Jivaro tribe, Ecuador
A63429	Ecuador		Shrunken head of child, by Jivaro tribe, Ecuador
A642550	Ecuador		Shrunken head with long hair, decorated with feathers, by Jivaro tribe, Ecuador
A642551	Ecuador		Shrunken head with long hair, from Ecuador
A642552	Ecuador		Shrunken head with long hair decorated with beetle elytra, from Ecuador
A642553	Ecuador	1801-1900	Shrunken head with long hair, from Ecuador
A642554	Ecuador		Shrunken head with long hair, decorated with beads, from Ecuador
A642555	Ecuador	1801-1900	Shrunken head with long hair, decorated with feathers and beads, by Jivaro tribe, Ecuador
A642556	Ecuador		Shrunken head with short hair, from Ecuador
A642557	Ecuador		Shrunken head with curly hair and beard, by Jivaro tribe, Ecuador
A642558	Ecuador		Shrunken head with long hair, from Ecuador
A642559	Ecuador		Shrunken head with long hair, from Ecuador
A642560	Ecuador		Shrunken head with long hair, decorated with feathers, from Ecuador
A642561	Ecuador		Shrunken head with long hair, decorated with beads and feathers, from Ecuador
A642562	Ecuador		Shrunken head with long hair, from Ecuador
A642563	Ecuador	1801-1900	Shrunken head, with long hair, by Jivaro tribe, Ecuador
A642564	Ecuador		Shrunken head with curly hair, by Jivaro tribe, Ecuador
A68229	Ecuador		Shrunken head, by Jivaro tribe, Ecuador
A68231	Ecuador		Shrunken head with short hair, from Central Ecuador
A88119	Ecuador	1850-1930	Native imitation shrunken head of gourd and human hair, Ecuadorian, 1850-1935
A95788	Ecuador		Shrunken head with long hair, decorated with feathers, from Ecuador
A95789	Ecuador		Shrunken head with long hair, decorated with feathers, from Ecuador
A97275	Ecuador		Shrunken head with long hair, by Jivaro tribe, Ecuador
A10760	Egypt	3000-1000BC	Mummy, infant female, said to be Egyptian, 3000-1000BC
A113324	Egypt	343-69	Egyptian mummy of the Ptolemaic period, Fayoum region
A113325	Egypt	343-69	Egyptian mummy, probably a child, of the Ptolemaic period
A153489	Egypt	1-300	Skull, adult, human, severely fractured as the result of a blow from an edged weapon, said to be Roman period, from Egypt, 1-300AD
A166708	Egypt	2000-1900BC	Skull, no mandible or facial skeleton, said to be young adult female, from Upper Nile region, inscription says Egyptian, 2000BC-1900
A54527	Egypt	2000-100BC	Mummified head, without wrappings, no provenance, Egyptian, 2000-100 BC
A634911	Egypt	4000-2001 BC	Bones of human left foot, showing effects of osteoarthritis, said to be predynastic Egyptian, 4000-2001 BC
A85943	Egypt	100BC-200	Human femur, left, showing healed unreduced fracture, adult, from Tell Fara, Egypt, 100 BC-200 AD
A85944	Egypt	100BC-200	Human femur, right, showing healed unreduced fracture, adult, from Tell Fara, Egypt, reputedly Roman period, 100 BC-200 AD
A85945	Egypt	100BC-200AD	Human humerus, left, showing healed unreduced fracture, adult, from Tell Fara, Egypt, reputedly Roman period, 100 BC-200 AD
A1315	England	1760-1820	A lock of hair said to be from George III, 1760-1820
A17489	England	1801-1850	Dried human head, dissected to show blood vessels etc., early 19th century

Accession Number	Provenance	Date Made	Description
A604010	England	1823	Lock of hair removed from Edward Jenner after his death, 26th January 1823, framed
A118307	Europe	1900-1925	Skull, normal, youth, for anatomical use, 1900-1925, probably European, hinged
A166206	Europe	1701-1900	Frontal bone of human skull, with signs of injury on left side, probably European, 18th or 19th century
A166621	Europe	1701-1900	Human head and neck preserved and injected with wax to show branches of external carotid artery, probably European, 18th or 19th century
A199290	Europe	1701-1900	Human cranium, mandible and facial skeleton and right temporal bone missing, probably European, 18th or 19th century
A25407	Europe	1801-1900	Articulated skeleton with phrenological skull inscribed in French, attached, European, 19th century
A28417	Europe	1-200	Glass funerary urn, with fragments of bones, Roman, Western Europe, 1-200AD
A28506	Europe	1701-1800	Gold memento mori finger ring, with transparent setting containing human hair, possibly 18th century
A635634	Europe	1700-1900	Skull of youth, badly damaged, probably European, c.1700 to c.1900
A635635	Europe	1700-1900	Skull of youth, damaged, c.1700 to c.1900, probably European
A63623	Europe	1800-1900	Human tongue, dried, probably European, c. 1800-1900
A650850	Europe	1871-1920	Human skull, no mandible, trepanned right parietal, probably European, 1871-1920
A650855	Europe	1851-1930	Human skull, broken, mandible and base cranial parts in fragments, cranium showing parietal exotosis, possibly European, 1851-1930
A650862	Europe	1701-1900	Human skull, no mandible, bone fitted, depression in left frontal bone, teeth worn, covered with labels, possibly used for phrenology, probably European, 18th or 19th century
A650863	Europe	1701-1900	Fragment of left side of human skull, probably European, 1701-1900
A650864	Europe	1701-1900	Fragment of human skull rond palate and nasal cavity, possibly European, 1701-1900
A650865	Europe	1701-1900	Fragment of right side of human skull, probably European, 1701-1900
A650866	Europe	1701-1900	Fragment of left side of human skull, probably European, 1701-1900
A650876	Europe	1500-1800	Fragile human skull, mandible missing, brown encrustation, European?, 1500-1800
A651131	Europe	1880-1920	Trade amulet made in Europe for African market, consisting of 3 artificial human teeth, 2 incisors and 1 canine, European, 1880-1920, threaded on string
A651855	Europe	1801-1900	Leg bone shows badly healed fracture, with initials W.H., European, 19th century
A653939	Europe	1790-1810	Foetal skull on turned lignum vitae stand, lower jaw missing, domed cover of lignum vitae with ivory finial, European, 1790-1810
A659655	Europe	1701-1900	Human skull, cranium sliced horizontally, probably used as a demonstration model as different bones have been numbered, European(?), 18th or 19th century
A665511	Europe	1701-1910	Tubular silver pendant with projecting lock of human hair, amuletic, De Mortillet collection, European(?), 1701-1919
A74779	Europe	1900-1923	Skull of European child aged about 4 to 6 years old, showing complete milk dentition, black dots showing growth points etc., European, 1900-1925
A96088	Europe	1801-1900	Human skull, calvarium only, trepanned left parietal, left half of frontal bone missing, sections wired together, probably European, 1801-1900
1981-471	France	1900-1940	Disarticulated skull, human, by Rouppert of Paris, 1900-1940, owned by Dr. Edwin Clarke
A119091	France	1815-1821	Lock of Napoleon's hair, cut off by Dr. Barry O'Meara at St. Helena
A121429	France	1801-1900	Human skin from one half of male body, probably French, 19th century
A524	France	1850-1920	Human skin tattooed with male and female figures, head of clown and bird, and inscribed " Robinet", French, 1850 to 1920
A525	France	1830-1900	Human skin from chest and abdomen, tattooed with two female heads and lion and lioness, French, 1830-1890
A526	France	1830-1900	Human skin from whole chest of man, tattooed with various motifs, French, 1830-1900
A527	France	1850-1920	Human skin tattooed with star and head, French, 1850 to 1920
A528	France	1880-1920	Human skin tattooed with woman's head and shoulders and inscribed with place names including Algeria and Sahara, French, 1880 to 1920
A529	France	1880-1920	Human skin tattooed with figure of woman, anchor and star and other faint marks, in poor condition, French, 1880 to 1920
A530	France	1899	Human skin tattooed with various motifs, probably dated 1899, French
A531	France	1867	Human skin, tattooed with two figures of soldiers, male and female in peasant costume, crossed cannon and crossed swords, probably French, dated 1867

Accession Number	Provenance	Date Made	Description

A232134	North America	1871-1900	Beaded leather amulet, in form of turtle or lizard, containing umbilical cord, Plains Indian, North America, late 19th century
A631117	North America	1000-1800	Skull and mandible of female skeleton, from San Miguel Island, California, USA; prehistoric Indian, with flint spearhead impaled in left temple, ex. Moadie collection
A631905	North America	1000-1700	Isolated skull of prehistoric North American Indian, from Sacramento Valley, California, USA, illustrating inverted canines and a metopic suture
A642458	North America		3 hairs said to be from the head of George Washington, fixed to certificate of authenticity
A642566	North America		Scalp lock, North American, Indian
A659654	North America	1701-1900	Skull of a North American Indian, long-headed, thought to have been artificially deformed, lower jaw missing, USA(?), and Canada(?), 18th to 19th centuries
A656115	Oceania	1801-1900	Human skull, headhunter's trophy, with lower jaw bound to upper and engraved design associated with females carved on forehead, Oceanic, 1801-1900
A63309	Palestine		Tibia and fibula, excavated in Palestine c.1925, fracture evident
A63310	Palestine		Femur, human, showing unreduced fracture, excavated by Sir Flinders Petrie in Palestine, c.1925
A63311	Palestine		Radius, human, with unreduced fracture, from Prehistoric burial in Palestine excavated by Sir Flinders Petrie, c.1925
A634844	Palestine	2200-2000BC	Excavated bronze age skull showing 4 healed trephinations, from Jericho, 2200-2000BC
A131557	Papua New Guinea	1801-1900	Human skull, lower mandible missing, with incised decoration of forehead, from Papuan Gulf area, New Guinea, 1801-1900
A14624	Papua New Guinea	1700-1900	Skull, youth, Papuan, with mandible c. 1700 to c. 1900
A157602	Papua New Guinea	1830-1920	Skull with mandible, face partially reconstructed with wax, eye sockets wax filled, from interior tribe, Kikori, Papua New Guinea, 1830-1920
A39063	Papua New Guinea	1851-1910	Human skull, reconstructed features of wax and clasp painted red, shell eyes, ceremonial, from Kikori River region, Papuan Gulf, New Guinea, 1857-1910
A45779	Papua New Guinea	1851-1910	Human skull, small, with lower jar attached by sennit and missing teeth replaced by cane pegs, face reconstructed with traces of shell inlay for eyes, traces of coloured pigment, from Kokori River region, Papua Gulf, Papua New Guinea, 1851-1910
A650846	Papua New Guinea	1891-1900	Human cranium with trephination from New Britain collected by Rev. J.H. Crump, Papua New Guinea, 1891-1900
A650847	Papua New Guinea	1891-1900	Human skull with eight trephinations, showing considerable regrowth, from New Ireland, Papua New Guinea, 1891-1900
A7090	Papua New Guinea	1830-1900	Male(?) skull without mandible, eye sockets inland with mother of pearl with pupils kept out of sentiments and for divination, from Dyke Bay, Papua New Guinea, 1830-1900
A97181	Papua New Guinea	1871-1920	Human skull, no lower jaw(?), modelled over with clay and decorated with red and white and black tribal markings, ceremonial, from Sepik River region, New Guinea, 1871-1920

Accession Number	Provenance	Date Made	Description
A97202	Papua New Guinea	1871-1920	Male, ancestral figure of carved wood, with beard of natural hair, tusk in nose and inlaid cowrie shells for eyes, mounted on wooden base, from Mundugumor tribe, Sepik River region, New Guinea, 1871-1920
A301301	Peru	1401-1800	Human mummy, in rope container, Peru?, 1401-1800
A101342	Peru	1000-1500	Toilet flask made from skeleton of a small animal or part of human vertebrae, covered with hide, pre-Columbian, Nazca Indian, Peru, 1000-1500
A104974	Peru	800-1400	Bundle of plaited human hair, Peruvian, 800-1400
A104975	Peru	800-1400	Bundle of plaited human hair, Peruvian, 800-1400
A10690	Peru	1401-1900	Mummified Peruvian head, on wooden stand, 1401-1900
A113174	Peru	800-1400	Mummified body with knees folded to chin, Peruvian, 800-1400
A113175	Peru	800-1400	Mummified body, Peruvian, 800-1400
A113176	Peru	800-1400	Mummified body with knees to chin, Peruvian, 800-1400
A113177	Peru	800-1400	Mummified body with knees to chin, Peruvian, 800-1400
A113178	Peru	800-1400	Mummified body with knees to chin, Peruvian, 800-1400
A161722	Peru		Shrunken head with long hair, said to be that of Tibi, a chief of the "Antipas", Peru
A25554	Peru	800-1400	Mummified head and arm, Peruvian, 800-1400
A301495	Peru	1801-1920	Human skull showing artificial deformation of cranium, damaged and repaired, possibly Peruvian, 1801-1920
A54857	Peru	800-1600	Mummified hand and foot of a young girl, Peruvian, 800-1600
A642548	Peru	1801-1900	Shrunken head with long hair, decorated with feather, acquired from Conibo tribe, Peru, 1900
A656076	Peru	1801-1900	Human skull showing artificial deformation by fronto-occipital pressure, no lower mandible, from Peru, 1801-1900
A656100	Peru	1751-1920	Human skull, crushed, showing artificial deformation by fronto-occipital flattening, from Peru, South America, 1751-1920
A76219	Peru	1800-1900	Amulet made from a knuckle bone, in the form of a human figure, bead inset for eye (one missing), Peruvian(?), 1800-1900
A88394	Peru	1501-1900	Mandible only of human skull, from Chorrillos, Lima, Peruvian, 1501-1900
A88395	Peru	1501-1900	Mandible only of human skull, from Macavileca, Chorrillos, Peruvian, 1501-1900
A158034	Philippines	1851-1920	Human skull, headhunter's trophy, with lower jaw attached by cane strips, cranium badly pitted, from Luzon, Philippines, 1851-1920
A96090	Philippines	1801-1820	Brachycephalons human skull with artificial articulation of mandible and trephination of left parietal possibly post mortem, from the Philippines, 1801-1920
A59001	Senegal	1831-1925	Human skull with artificial articulation of mandible, round trephination above right orbit possibly post mortem, from Senegal, African, 1831-1925
A656112	Sierra Leone	1801-1910	Skull, human and male, dolichocephalic, with sword wounds, from headdress of Tasso man of Poro Secret Society, Sierra Leone, 1801-1910
A657217	Sierra Leone	1851-1920	Human skull, no lower mandible, with secret Poro Society rattle, attached, from Mendiland, Sierra Leone, 1851-1920
A20620	Solomon Islands	1801-1910	Human skull, with lower mandible attached by strips of cane, and wearing hoop earrings on one side, associated with ancestor worship, from Solomon Islands
A657857	South Africa	1801-1900	Part of the upper mandible of a human skull with two broken and two complete teeth, found in a 'cannibal's' cave at Cana, Basutoland, South African, 19th century
A657940	South Africa	1700-1920	Bone, remnant, human, found in 'cannibal's' cave, found at Cana, Basutoland, South Africa, 1700-1920
A130409	South America		Shrunken head with short hair, South American
A27677	South America		String of beetle elytra, with tuft of human hair at distal end, for decorating shrunken head, South American
A31654	South America	800-1400	Mummified male body, South American, 800-1400
A31655	South America	800-1400	Mummified male body, South American, 800-1400
A642652	South America		String of beetle elytra, with tuft of human hair at distal end, for decorating shrunken head, South American
A670015	South America	1870-1935	Amuletic leglet, woven fibre and seeds with seed, nut and human bone fringe, mounted on cardboard, Upper Amazon, South American, 1870-1935
A88036	South America	1600-1930	Pair of leprous femurs, perhaps South American, 1600-1930
A88945	South America		Girdle or "acachu" made from human hair, from Tutanangosa, South America
A263780	Sudan		Right femur (part), human, possibly with periosteal sarcoma, from prehistoric cemetery, Gebel Mayo, Sudan, excavated c. 1935

Accession Number	Provenance	Date Made	Description
A263829	Sudan		Part of skull showing depressed fracture, prehistoric cemetery, Gebel Moya
A631395	Sudan		4 human urinary calculi from prehistoric cemetery of Gebel-Moya, Sudan, excavated early 20th century
A634834	Sudan	1000-401BC	Excavated neolithic radius and ulna broken near wrist, Sudanese, 1000BC-401BC
A634835	Sudan	1000-401BC	Neolithic mandible, 1000-401BC, excavated at Jebel Moya, Sudan
A634837	Sudan	1000-401BC	Excavated fragment of neolithic mandible showing displaced molar, Sudanese, 1000-401BC
A634839	Sudan	1000-401BC	Excavated neolithic mandible and maxilla showing decay of tooth sockets, Sudanese, 1000-401BC
A634840	Sudan	1000-401BC	Excavated neolithic mandible and maxilla, showing evidence of food packing, Sudanese, 1000-401BC
A634840/1	Sudan	1000-401BC	Excavated neolithic maxilla, showing evidence of food packing, Sudanese, 1000-401BC
A634840/2	Sudan	1000-401BC	Excavated neolithic mandible, showing evidence of food packing, Sudanese, 1000-401BC
A634850	Sudan	1000-401BC	Excavated neolithic mandible showing alveolar abscesses, Sudanese, 1000-401BC
A634851	Sudan	1000-401BC	Excavated and restored "neolithic" skull showing canine protruding through upper jaw, Sudanese, 1000-401BC
A658214	Sudan	50,000-10,000BC	Small fragments of a skull excavated from the prehistoric Ethiopian cemetery at Gebel-Moya, Anglo-Egyptian Sudan, by the expedition of Henry Wellcome, Sudanese, c. 50,000-10,000BC
A658320	Sudan	1880-1910	Amuletic necklace consisting of string of disc beads interspersed by human teeth(?) incisors and milk, Gour tribe, Sudan, 1880-1910
A682453	Sudan		2 pieces of metatarsal bone, showing exostosis, from prehistoric cemetery at Gebel-Moya, Sudan
A682454	Sudan		2 pieces of incomplete metatarsal bone, sharing exostosis, from prehistoric cemetery at Gebel-Moya, Sudan
A106457	Tibet	1701-1900	Ritual Buddhist trumpet, made from human femur, Tibetan, 18th or 19th century
A106716	Tibet	1701-1900	Buddhist drum made from human skulls, Tibetan, 18th or 19th century
A114542	Tibet		Double headed skull drum, skin and bone, Tibetan, date unknown
A114543	Tibet	1701-1800	Buddhist trumpet made from a human femur, Tibetan, 18th century
A126464	Tibet		Skull drum, double-headed, skin and bone, Tibetan, date unknown
A129638	Tibet		Double-headed skull drum, skin and bone, Tibetan, date unknown
A137565	Tibet	1801-1900	Skull bowl with copper lid and stand, Tibetan, 19th century
A138503	Tibet	1801-1900	Pectoral made of carved human bone beads, strung on threads, and in necromantic rites, Tibetan, 19th century
A138504	Tibet	1801-1900	Two armbands, made of carved human bone beads, strung on threads, used in necromantic rites, Tibetan, 19th century
A15408	Tibet	1701-1900	Pair of Buddhist ritual trumpets, human thigh bones with silver and armour mounts, Tibetan, 18th to 19th centuries
A15408/1	Tibet	1701-1900	Buddhist ritual trumpet, one of pair, human thigh bones with silver and armour mounts, Tibetan, 18th to 19th centuries
A15408/2	Tibet	1701-1900	Buddhist ritual trumpet, one of pair, human thigh bones with silver and armour mounts, Tibetan, 18th to 19th centuries
A157352	Tibet	1701-1900	Buddhist drum made from human skull, Tibetan, 18th or 19th centuries
A157353	Tibet		Trumpets made from human femur, Tibetan, date uncertain
A161157	Tibet	1801-1900	Buddhist trumpet, made from human femur with brass horn, Tibetan, 19th century
A161161	Tibet	1801-1900	Buddhist trumpet made from human femur, called a Rkan, Tibetan, 19th century
A161170	Tibet	1701-1900	Buddhist human skull vessel and brass stand, Tibetan, 18th or 19th century
A161171	Tibet		Bowl made from top of human skull, Tibetan, date uncertain
A161208	Tibet	1701-1900	Buddhist priest's cloth helmet with plaques of human bone, called a nag-pa, Tibetan, 18th or 19th century
A161209	Tibet	1701-1900	Carved bone ornaments from a Buddhist priest's apron, called a nag-pa, Tibetan, 18th or 19th century
A161210	Tibet	1701-1900	Buddhist priest's cloth apron with plaques of human bone, called a nag-pa, Tibetan, 18th or 19th century
A161211	Tibet	1701-1900	Bones from a Buddhist priest's apron, Tibetan, 18th or 19th century
A161267	Tibet	1601-1900	Buddhist rosary of human skull beads, Tibetan, 17th to 19th century
A161269	Tibet	1801-1900	Buddhist rosary with beads of bone, Tibetan, 19th century
A175061	Tibet	1801-1900	Top of skull mounted in copper, used in Tantric rites, Tibetan, 19th century
A17517	Tibet	1701-1900	Trumpet, made from human femur, decorated with copper and brass, Tibetan, 1701-1900

Accession Number	Provenance	Date Made	Description
A18944	Tibet	1801-1900	Skull bowl, with brass lid and stand, Tibetan, 19th Century
A193310	Tibet	1801-1900	Apron made from carved human bone beads, strung on threads, and in necromantic rites, Tibetan, 19th century
A196305	Tibet	1801-1900	Pectoral made of carved human bone, strung on threads, Tibetan, 19th century
A196306	Tibet	1801-1900	Pectoral with back yoke, made of carved human bone, strung on threads, Tibetan, 19th century
A20948	Tibet	1801-1900	Set of four Buddhist bowls, made from human skulls, Tibetan, 19th century
A23180	Tibet	1701-1900	Trumpet, made from human femur, Tibetan, 1701-1900
A242597	Tibet		Trumpet made from human femur, Tibetan, date uncertain
A27550	Tibet	1801-1900	Apron made from carved human bone beads and girdle, mounted on green silk backing, Tibetan, 19th century
A27552	Tibet	1801-1900	Apron of human bone beads strung on threads, used in necromantic rites, Tibetan, 19th century
A301250	Tibet	1701-1900	Buddhist drum made of human skulls, Tibetan, 18th or 19th century
A4508	Tibet		Bowl, made from top of human skull, three copper wire feet, Tibet date uncertain
A4737	Tibet	1801-1900	Buddhist drum, made from human skulls, Tibetan, 19th century
A635115	Tibet	1701-1900	Hand drum, called a damatu, made of two human skulls, Tibetan, 18th or 19th century
A635120	Tibet	1701-1900	Buddhist bowl made of Lama's skull, fine bronze lid, Tibetan, 18th or 19th century
A635124	Tibet	1701-1900	Buddhist bowl made of human skull, Tibetan, 18th or 19th century
A635128	Tibet	1701-1900	Buddhist bowl of silver and human skull, Tibetan, 18th or 19th century
A635129	Tibet	1701-1900	Buddhist prayer wheel made from human skulls, Tibetan, 18th or 19th century
A635138	Tibet	1701-1900	Buddhist drum, made of 2 human skulls, Tibetan, 18th or 19th century
A635150	Tibet	1701-1900	Buddhist drum made from two human skulls, Tibetan, 18th or 19th century
A639062	Tibet	1801-1900	Skull bowl lined with bronze, bronze lid and stand, Tibetan, 19th century
A639063	Tibet	1801-1900	Skull bowl with lid and stand, metal and bone, Tibetan, 19th century
A639100	Tibet		Bowl made from top of human skull, Tibetan, date unknown
A639101	Tibet		Skull drum, double-headed, skin and bone, Tibetan, date unknown
A639102	Tibet		Bowl made from top of human skull, lined with brass, Tibetan, date uncertain
A639104	Tibet	1801-1900	Apron made of carved human bones, ivory plaque, turquoise bead, and small metal bulb, strung on threads, Tibetan, 19th century
A639118	Tibet	1801-1900	Two bracelets made of carved human bone, strung on threads, Tibetan, 19th century
A55195	Uganda	1925	Human calvaria showing recent trephination hole, from Uganda, 1925
1982-1237	UK	449-1066	Human cranium, possibly trephined, with eight skull fragments, possibly Saxon
1996-350	UK	1900-1996	Freeze dried normal adult brain (age 69, male)
1996-352	UK	1900-1996	Freeze dried slice of Alzheimer's brain (age 81, female)
1996-354	UK	1900-1996	Freeze dried slice of normal brain (age 53, male)
1999-396	UK		Distended human skull, labelled LN Fowler, for phrenological use, from the British Phrenological Society.
1999-397	UK		Human skull, marked with phrenological divisions, from the British Phrenological Society.
1999-398	UK		Human skull, marked with phrenological divisions, from the British Phrenological Society.
1999-399	UK		Human skull, marked with phrenological divisions, from the British Phrenological Society.
1999-400	UK		Top of human skull marked with phrenological divisions, from the British Phrenological Society.
1999-403	UK		Right hand side of human skull, possibly for phrenological use, from the British Phrenological Society.
1999-404	UK		Human skull complete with lower mandible, possibly for phrenological use, from the British Phrenological Society.
1999-405	UK		Human skull, possibly for phrenological use, from the British Phrenological Society.
1999-92	UK	1900-1992	Femor bone with plastic panel used to join two fractured sections with steel pins, part of a collection of joint prostheses and associated material, representing joint replacement technology, some of which have been developed at the Orthopaedic Research Unit at the Redhill and Dorking Hospitals, Surrey, 1900-92.
1999-969	UK	1999	Flask containing complete sheet of laboratory grown human skin cells preserved in 10% formal saline (formalin), 1999.

Accession Number	Provenance	Date Made	Description
2004-260	UK	1950-91	Wooden cabinet containing histological slides prepared by Dr J C Wagner, 1950-91, including original material relating to cases described in his 1960 paper making a causal link between exposure to blue asbestos and the lung cancer, mesothelioma.
2004-262	UK	1950-91	Box of photomicrographs and laminated lung sections prepared by Dr J C Wagner, 1950-91, during his work on lung diseases in animals and humans.
2005-644	UK		Post mortem histological slides prepared by Dr P C Elmes, 1958-76, including original material from the '1940 group', the first fully investigated cases of mesothelioma in the UK (in Belfast shipyard workers).
A121088	UK	1850-1920	Dried left arm, possibly child's, mounted on board, prepared for demonstrating ligaments and arterial system, English(?), 1850-1920
A155938	UK	1820-1860	Partial lower denture, ivory with one human bicuspid, English, 1820-1860
A155939	UK	1820-1860	Partial lower denture, ivory with one human bicuspid, English, 1820-1860
A200952	UK	1701-1900	Human skull, found in the Thames, no mandible, broken zygomatic arch, English, 18th or 19th century
A233179	UK	1854-1870	Photograph, possibly of a painting of Florence Nightingale, and a lock of her hair, framed, c1854-1870.
A3215	UK	1784	A lock of hair, said to be from the head of Edward IV, taken from his tomb at Windsor in 1784, mounted in a frame, and secured by wax to a piece of paper bearing a handwritten descriptive inscription
A44694	UK	1832	Fragment of skin of Jeremy Bentham, who was dissected in 1832, in frame
A45462	UK	1143-1189	Teeth, said to be a tooth of Henry II, c.1143-1189
A48800	UK	1875-1925	Seven human bones, mostly from skulls of at least three individuals, English, 1875-1925
A622118	UK	1801-1850	Partial upper and lower denture, with springs, gold, ivory and human teeth, English, 1801-1850
A622296	UK	1801-1850	Dental crown, half a pinned natural tooth, pin missing, probably from a denture, probably English, 1801-1850
A634836	UK	1750-1251BC	Excavated middle bronze age, mandible showing ground teeth and periostitis, Welsh, 1750-1251BC
A634848	UK	3500-2001BC	Excavated neolithic skull, showing healed trephining and recovery from bad fracture, perhaps British, 3500-2001BC
A635013	UK	500-1000	Replica of Anglo-Saxon copper arm bandage with human arm bone, English, 500-1000
A63614	UK	1880-1910	Partial skull mounted on stand, personal relic of Dr. Shuttleworth, English(?), 1880-1910
A642926	UK	1800-1852	Lock of Duke of Wellington's hair and 2 invitations to his funeral
A650596	UK	1850-1950	Vertebrae specimens in glass storage jar, specimens wrapped in muslin, English, 1850-1950
A650787	UK	1870-1910	Specie jar, clear glass, stopper immovable, contains ethmoid bone, personal relic of Mr. Claud Woakes of Harley Street, London, 1910
A650788	UK	1870-1905	Specie jar, clear glass, with wood lid, cork stopper, sealed with wax, contains nasal polypus, personal relic of Mr. Claude Woakes of Harley Street, London, 1905, by Curtis and Co. of London
A650789	UK	1870-1910	Specie jar, clear glass, with stopper, contains five small bones secured together by length of cotton, personal relic of Mr. Claud Woakes of Harley Street, London, 1870-1910
A650790	UK	1870-1895	Specie jar, clear glass, with stopper, contains six small stones mounted on piece of card, personal relic of Mr. Claud Woakes of Harley Street, London, 1870-1895
A650791	UK	1870-1910	Specie jar, blue glass, with stopper, contains unidentified bone, by Dr. Washington Evans, personal relic of Mr. Claud Woakes, English, 1870-1910
A650792	UK	1870-1926	Specie jar, clear glass, with stopper, contains unidentified bone, personal relic of Mr. Claud Woakes, English, 1870-1926
A650793	UK	1880-1920	Specie jar, clear glass, no stopper, contains specimen removed in operation, personal relic of Claud Woakes of London, English, 1880-1920
A650794	UK	1890-1936	Small piece of bone, anatomical specimen suspended from wire in a screw top glass jar, personal relic of Mr. Claud Woakes, 1890-1936
A650795	UK	1870-1930	Box container, cardboard, contains two small bones, personal relic of Mr. Claud Woakes of London, 1870-1930
A650797	UK	1880-1911	Cardboard container holding small anatomical specimen, originally for medal, personal relics of Claud Woakes, English, 1880-1920
A651338	UK	1860-1900	27 teeth, some fragmentary, extracted, English, 1860-1900
A651409	UK	1880-1920	Cardboard container holding pieces of bone, four annealing plates and a number of handwritten labels unconnected with items, personal relic of Claud Woakes, Senior Aural Surgeon, London Throat Hospital, M.R.C.S., L.R.C.P. (London). Made in England circa 1880-1920.

Accession Number	Provenance	Date Made	Description
A651414	UK	1870-1930	Cardboard container, red covering, hinged lid, contains four annealing slides, four pieces of bone and two teeth, box by Roberts and Co., personal relic of Mr Claud Woakes (1870-1930), senior Aural Surgeon, London Throat Hospital, M.R.C.S., L.R.C.P. (London).
A651969	UK	1920-1950	Section of lung in cylindrical glass jar with rubber stopper, pneumonectomy specimen to demonstrate bronchiectasis, owned and presumably prepared by Dr. P. Ellman, England, 1920-1950
A651970	UK	1920-1950	Section of lung in preservative sealed between 2 sheets of glass, to demonstrate pulmonary tuberculosis, owned and presumably prepared by Dr. P. Ellman, England, 1920-1950
A651971	UK	1920-1950	Section of lung in preservative sealed between 2 sheets of glass, to demonstrate military tuberculosis owned and presumably prepared by Dr. P. Ellman, England, 1920-1950
A651976	UK	1918-1920	7 glass phials containing bone dust resulting from trephination experiments by Dr. T. Wilson Parry, England, 1918-1920
A651990	UK	1913-1920	Piece of skull showing hole produced by trephination with obsidian instrument, experiment by Dr. T. Wilson Parry, England, 1913-1920
A651992	UK	1913	Piece of skull, showing hole produced by trephination with obsidian knife, experiment by Dr. T. Wilson Parry, England, 1913
A651993	UK	1913	Piece of skull showing groove produced by trephination with slate, experiment by Dr. T. Wilson Parry, England, 1913
A651994	UK	1918-1920	Top of skull showing rondelle produced by trephination with obsidian knife, experiment by Dr. T. Wilson Parry, England, 1918-1920
A651995	UK	1918-1920	Top of child's skull showing hole produced by trephination with flint racloir, experiment by Dr. T. Wilson Parry, England, 1918-1920 (possibly 1918)
A651996	UK	1913	Piece of skull showing hole produced by trephination with obsidian racloir, experiment by Dr. T. Wilson Parry, England, 1913
A651997	UK	1913-1920	Piece of skull of 21 year old male showing hole produced by trephination with flint scraper, experiment by Dr. T. Wilson Parry, England, 1913-1920
A651998	UK	1913	Piece of skull showing holes produced by trephination with hafted shark's tooth, experiment by Dr. T. Wilson Parry, England, 1913
A652220	UK	1918-1920	Glass phial containing bone dust resulting from trephination using shark's tooth, produced in experiment by Dr. T. Wilson Parry, England, 1918-1920
A652221	UK	1918-1920	Glass phial containing bone dust resulting from trephination using flint, produced during experiment by Dr. T. Wilson Parry, England, 1918-1920
A652222	UK	1918-1920	Glass phial containing bone dust resulting from trephination using flint, produced during experiment by Dr. T. Wilson Parry, England, 1918-1920
A653835	UK	1831	Fragment of skin from Thomas Williams, a bodysnatcher executed for murder 5th December 1831
A653837	UK	1820-1860	Human skin, tattooed with crucifix and badge possibly from one of the bodysnatchers Williams or Bishop, English, 1870-1860
A653951	UK	1850-1920	Dried left hand showing arterial system, English(?), 1850-1920
A653952	UK	1850-1920	Dried right hand showing circulatory system, English(?), 1850-1920
A656225	UK	1900-1930	Half-skeleton, right side in wooden box, for anatomy students, English, 1900-1930
A659618	UK	1601-1840	Some pieces of human skin covered with fungus, in glass topped plywood case, found in St. Martin's Vaults, London, 1859, English, 1601-1840
A659620	UK	1601-1850	Piece of human body converted into adipocere, inside plywood case with broken glass top, found by F.T. Buckland in 1859, with label inscribed by him, English, 1601-1850
A659623	UK	1801-1840	Portions of human body showing unusual colour, found by F.T. Buckland in vaults of St. Martin in the Fields, 1859, in glass-topped case with label, English, 1601-1840
A659626	UK	1601-1850	Human dust, black, in glass-topped container with label, found in St. Martin in the Fields vaults by F.T. Buckland, 1859, English, 1601-1850
A659627	UK	1601-1850	Portions of human skull with crystals, found in vaults of St. Martin in the fields, 1859 by F.T. Buckland, in case with label, English, 1601-1850
A659628	UK	1601-1840	2 portions of human body converted into adipocere, found in vaults of St. Martin in the Fields, 1859, by F.T. Buckland, in damaged case, with label, English, 1601-1840
A659629	UK	1634-1840	Skin from neck of one of brothers hanged for forgery, puckered and marked by rope, with labels, found by F.T. Buckland in vaults of St. Martin in the Fields, 1859, English(?), 1634-1840
A659630	UK	1834-1840	4 vertebrae from neck of 2 brother hanged for forgery found in vaults of St. Martin in the Fields by F.T. Buckland, 1859, with label, English(?), 1834-1840
A661040	UK		Pottery cinerary urn, containing cremated remains, from Kent, Iron Age
A665266	UK		Astragalus (ankle) bone carried against rheumatism, Suffolk, 1880-1916

Accession Number	Provenance	Date Made	Description
A665275	UK	1914	Astragalus, (ankle bone) used as an amulet to cure rheumatism, from East London, 1914
A666072	UK	1880-1916	Human tooth, in grey and green printed cotton bag, tied round neck of infant to facilitate teething, south east London, 1916, English, 1880-1916
A667469	UK	1821-1870	Small sealed specimen jar containing piece of brain of Burke the Edinburgh body-snatcher executed in 1829, jar made in Great Britain,
A683111	UK	1601-1840	Human dust from vaults of St. Martin in the Fields found by F.T. Buckland in 1859, in case with label, English, 1601-1840
A72364	UK	1900-1929	Human stomach, dried, relic of Dr. Hill of London, c.1900-1929
A72365	UK	1900-1929	Part of human stomach, relic of Dr. Hill, dried, c.1900-1929
A86416	UK		Lock of hair, said to be from the head of Grace Darling, in box, complete with a signed letter testifying to its authenticity
A96092	UK	500BC-1200	Human calvarium with depression in right parietal possibly healed trephination, English, 500 BC to 1200
E2000.168.1	UK	21/06/1905	Human DNA sample in ethanol extracted from 4 litres of total blood in 500ml bottle with blue screw top.
E2000.230.1	UK	1999	Skin grown in tissue culture, stained with red dye.
E2000.230.2	UK	1999	Skin grown in tissue culture, unstained in ethanol as preservative.
E2000.252.1	UK		Human femur
L1999-4098	UK		One male human skeleton of Iron Age date from Whitegate Farm, Bleadon.
L2000-4371	UK		Human brain
L2001-4064	UK	2000	Human heart from Robert Moss, who received a heart transplant on 4/8/00.
L2004-4141	UK		Babbage's brain: right sagittal section with cerebellum.
1980-542	Unknown	1980	Human skeleton, articulated, in bone, with stand and dust lever, 1980
1982-402	Unknown		Full term foetal skeleton, under glass dome on wooden base
1987-1159/10	Unknown	1940-1987	Human skull, adult, 'normal negroid', formerly the property of D. Greer-Walker, 1940-1987
1987-1159/7	Unknown	1940-1987	Two human temporal bones, normal, formerly the property of D. Greer-Walker, 1940-1987
1987-1159/8	Unknown	1940-1987	Infant's skull, illustrating cleft palate and displaced premaxilla formerly the property of D. Greer Walker, 1940-1987
1987-1159/9	Unknown	1940-1987	Human skull, adult, normal caucasian with slight underdevelopment of premaxilla, formerly the property of D. Greer-Walker, 1940-1987
1988-1041	Unknown		Bones of lower leg and foot, incomplete, origins unknown
1988-1042	Unknown		Human foot bones, incomplete, origins unknown
1988-1043	Unknown		Human fibula, origins unknown
A156516	Unknown	1501-1900	Human skull with damaged mandible, hole in left parietal possibly trephination, two other small holes, provenance unknown, 1501-1900
A160512	Unknown		Hank of human hair, provenance and date unknown
A191643	Unknown		Shrunken head with long hair, decorated with feathers
A36675	Unknown		Shrunken head with long hair, decorated with beads
A5075 Pt4	Unknown		Part of human(?) skull
A600029	Unknown	1831-1870	Preserved human left hand, mid 19th century
A600030	Unknown	1790-1823	Part of a human stomach, dissected by Edward Jenner
A604009	Unknown		Top of human skull
A613193	Unknown		Specimen bottle, with contents, glass, with cork stopper
A622050	Unknown		Ten human teeth, set of upper incisors; one tooth has been chipped but the tooth chip is present.
A622284	Unknown		Molar tooth, drilled, with cavity, no provenance
A622285	Unknown		Molar tooth, drilled, no provenance
A622286	Unknown		Molar tooth, drilled, no provenance
A622287	Unknown		Molar tooth, drilled, no provenance
A622288	Unknown		Molar tooth, drilled, no provenance
A622289	Unknown	1801-1900	Molar tooth, drilled, 1801-1900
A622290	Unknown		Molar tooth, drilled, no provenance
A622291	Unknown		Molar tooth, drilled, no provenance
A622292	Unknown		Molar tooth, drilled, no provenance
A622293	Unknown		Molar tooth, drilled, no provenance
A622294	Unknown		Molar tooth, drilled, filled with gutta percha(?), no provenance
A623211	Unknown	1850-1930	Human lower incisor tooth, no provenance, 1850-1930
A634849	Unknown	3500-2001BC	Possibly neolithic skull showing large trephined hole, 3500-2001BC
A641568	Unknown	1709	Metal memento mori finger ring, set with a large square transparent stone which contains a skull on a hair background with a red and gold border, engraved inscription inside band, 1709
A641570	Unknown	1747	Metal memento mori finger ring, set with 1 large square transparent stone, with hair, surrounded by 4 small clear stones and ornate band bearing champlere inscription, 1747

Accession Number	Provenance	Date Made	Description
A641574	Unknown		Metal memento mori finger ring, with 1 large square setting which shows a tomb, a tree, skull and crossbones, possibly outlined in hair on a white background covered by glass
A641589	Unknown		Gold memento mori finger ring, set with a transparent oval stone containing an image of an urn and weeping willow made from hair
A641594	Unknown		Gold memento mori ring, with oval setting composed of transparent cover over carved picture of a man leaning on an urn, partly made from hair
A641604	Unknown		Metal memento mori finger ring, with large rectangular setting, reversible, with a scene of a nymph standing next to a pillar on one side, and an inscription set against a background of hair on other side
A641619	Unknown	1815	Gold memento mori finger ring, with rectangular swivel setting containing hair, under glass, with inscription on back of bezel, 1815
A642143	Unknown	1689	Gold slide, a memento mori of entwined hair and a skeleton, covered by glass, engraved with the initials W.H., 1689
A642147	Unknown	1852	Gold pendant, or memento mori with entwined hair and inscription, seal attached, 1852
A642148	Unknown		Piece of memento mori, possibly from a slide, consisting of oval piece of glass backed by plaited hair and a picture of a skull
A642442	Unknown		Brooch, containing a graveyard scene with trees, flowers, a pond and a tomb, made up from hair, mounted in an oval metal frame and covered with glass, fastener missing
A642443	Unknown		Brooch, containing hair and thread and pearls, arranged on a pearly background, mounted in an oval metal frame and covered with glass, fastener missing
A642811	Unknown	1815-1900	Phrenological head, made from a skull, labelled in French, with an Italian summary, according to Spurzheim's system (35 divisions) 1815-1900
A642903	Unknown		Skeleton of foetus mounted under glass dome
A645177	Unknown		Preserved male genito-urinary system with erect penis
A646748	Unknown		Human skull, provenance unknown.
A646748	Unknown		Human skull with teeth held by metal denture
A651264	Unknown	1880-1928	Wooden box, filled with wrapped skulls and post cranial material and histological slides, property of Dr. Albert Wilson, 1880-1928
A651999	Unknown	1801-1920	Human skull, used by Dr T. Wilson Parry to demonstrate different methods of primitive trephination, with excised bone on wires, provenance unknown, 1801-1920
A652000	Unknown	1801-1913	Frontal bone of skull used by Dr. Wilson Parry to demonstrate primitive method of trephining using flint scraper, provenance unknown, 1801-1913
A652201	Unknown	1801-1913	Piece of infant's skull, used by Dr. T. Wilson Parry to demonstrate primitive method of trephination using skull and taking 25 minutes, provenance unknown, 1801-1913
A652202	Unknown	1801-1918	Piece of skull used by Dr. T. Wilson Parry to demonstrate primitive method of trephining by boring with bow drill and stringing and scraping with flint flake, provenance unknown, 1801-1918
A652203	Unknown	1801-1918	Right frontal and parietal bones used by Dr. Wilson Parry to demonstrate primitive method of trephining using flint flakes, provenance unknown, 1801-1918
A652204	Unknown	1818-1918	Frontal bone of skull, used by Dr. Wilson Parry to demonstrate primitive method of trephining, using glass instrument, provenance unknown, 1801-1918
A652205	Unknown	1901-1918	Piece of infant's skull, used by Dr. T. Wilson Parry to demonstrate primitive trephination by scraping with flint, taking 15 minutes, provenance unknown, 1801-1918
A652206	Unknown	1801-1918	Piece of infant's skull, used by Dr. T. Wilson Parry to demonstrate primitive method of trephining by boring holes with hafted sharks tooth, provenance unknown, 1801-1918
A652207	Unknown	1801-1913	Piece of infant's skull used by Dr. Wilson Parry to demonstrate primitive method of trephining, using obsidian flake, taking 8 minutes, provenance unknown, 1801-1913
A652208	Unknown	1801-1913	Frontal bone, used by Dr. Wilson Parry to demonstrate trephining by primitive method, trephined entirely by hafted shark's tooth, provenance unknown, 1801-1913
A652209	Unknown	1801-1913	Piece of skull, used by Dr. T. Wilson Parry to demonstrate primitive trephining by method of first boring circle of holes with flint, provenance unknown, 1801-1913
A652210	Unknown	1801-1918	Piece of skull used by Dr. T. Wilson Parry to demonstrate primitive trephining by method of first boring circle of holes with flint instruments, provenance unknown, 1801-1918

Accession Number	Provenance	Date Made	Description
A652211	Unknown	1801-1918	Piece of skull used by Dr. T. Wilson Parry to demonstrate primitive trephining, first and second stages of flint bored hole method, taking 77 minutes, provenance unknown, 1801-1918
A652212	Unknown	1801-1920	Piece of skull used by Dr. T. Wilson Parry to demonstrate primitive trephining by push-plough method with flint, provenance unknown, 1801-1920
A652213	Unknown	1801-1918	Piece of skull used by Dr. T. Wilson Parry to demonstrate primitive trephining by scraping with flint, provenance unknown, 1801-1918
A652214	Unknown	1801-1920	Skull used by Dr. T. Wilson Parry to demonstrate trephining using glass instrument with two trephination holes, one with excised bone held in place with wire, provenance unknown, 1801-1920
A652215	Unknown	1801-1920	Human skull with 2 trephinations in parietal bones, one with excised rondelle hinged in place, part of Dr. T. Wilson Parry's collection, provenance unknown, 1801-1920
A652216	Unknown	1801-1920	Skull drinking cup belonging to Dr. T. Wilson Parry, from S. Pacific Islands, 1801-1920
A661143	Unknown		Dried male genito-urinary system
A661144	Unknown		Dried stomach complete with duodenum and possibly the gall bladder
A661145	Unknown		Dried penis
A661188	Unknown		Human skull, mandible missing, possibly Roman
A666424	Unknown	1801-1920	Human skull, no mandible, no provenance details, 1801-1920
A666425	Unknown		3 human mandibles, rest of skulls missing, no provenance or date details
A683007	Unknown	1701-1800	Piece of trephined skull, showing injury, owned by Dr Edward Jenner, possibly 18th century
A70593	Unknown		Skull of a human child or foetus
A71927	Unknown	1801-1900	Gold brooch, a memento mori to John Amery, with painting of mother and children next to an urn made of hair and studded with seed plants, 19th century
A71928	Unknown		Gold brooch, a memento mori set with garnets and pearls with plaited hair in the centre
A78701	Unknown		Preserved human left arm
A78702	Unknown	1831-1870	Dissection of human left arm, mid 19th century
A78778	Unknown		Dried human brain, part only
A78779	Unknown		Dried human brain, part only
A78780	Unknown		Dried human brain, half only
A97085	Unknown		Skull of an adult male, neolithic
E2007.254.2	Unknown		Various human bones; bagged skeletal material, includes skull fragments, and various human bones.
E2007.254.3	Unknown		Human brain in brine, unknown provenance
E2007.254.4	Unknown		Human foot
L2000-4427	Unknown	2000	Sample of red hair, 2000.
A642477	Venezuela		Shrunken head with short hair, acquired in Venezuela
A642565	Venezuela		Shrunken head with clipped hair, acquired in Venezuela
A128972	Zaire	1801-1920	Human skull of senile, no lower mandible, with brain cavity full of vine tendrils, said to have been found in tree, from Api, Zaire, 1801-1920
