

# sciencemuseumlearning

**Please fill in the form below to register your interest as a learning adviser.**

Becoming a Science Museum learning adviser means that we will contact you about new resources and courses that we are developing. You will help us come up with ideas, test them and give us advice about how to make them even better. We may also ask you to join focus groups and attend special teachers' events.

Name:

School/organisation name (please specify if you are not from a school):

Organisation address:

Contact phone number:

E-mail address:

Where do you teach?                      Primary school                       Secondary school
